15TH YEAR. NO. 236.

EAST LIVERPOOL, O., MONDAY, MARCH 19, 1900.

TWO CENTS

QUARRELED OVER A QUART OF WHISKY.

A Murderous Attack Upon John Cummings on South Side Yesterday by Jno. Purvis and Joe Willis, Teamsters.

PARALYZED AND HEAD MASHED TO A PULP.

All Three Are Employed by Contractor McLaughlin on South Side Land Company's Addition. Purvis Arrested, Willis Escapes—Happened Sunday Morning.

South Side has another murder case.

A quarrel over a quart of whisky led to a savage attack by two fellow workmen upon John Cummings near Rock Spring park yesterday morning, and Cummings' death is hourly expected.

All the men are employed by Contractor John McLaughlin in grading the streets on the South Side Land company's addition. Cummings was cook for the gang. His assailants, John Purvis and Joe Willis, known as "Joe, the mule driver," were employed as teamsters.

About 10 o'clock yesterday morning Cummings and Purvis were standing in the big stable about 50 feet from the shanty where the men live, across the run opposite Rock Spring park. Joe the mule driver was also in the building. All three had been drinking whisky and the quarrel arose over their respective shares. Without warning Purvis lifted a singletree and struck Cummings over the head with it. Willis came forward, and, seizing the neck yoke, hammered Purvis over the head with it five or six times, knocking him down, unconscious and covered with blood.

About 10:20 Grant Mercer, G. A. Arner and R. G. Mercer, well known residents of Chester, were walking in the neighborhood and noticed Cummings lying outside the stable door. The door and walls were blood spattered and Cummings was lying in a pool of blood, his head a mass of cuts and bruises. They picked him up and carried him into the shanty, where they laid him in his bunk in the sleeping room. Arner said: "This man's going to die." Purvis, who was present, said: "Rub him with whisky." "No, we'll send for a doctor," said Arner.

MASHED TO A PULP.

Dr. F. M. Laughlin's Superficial Examination Reveals Terrible Injuries.

Dr. F. M. Laughlin, of this city, was sent for and went over in the afternoon. He made a superficial examination and found Cummings' skull was fractured and the back part of his head mashed to a pulp. His head is fearfully contused and the shock of the blows had paralyzed the man's whole body. He has been lying in a comatose condition ever since, and the doctor says he cannot possibly recover.

The only eyewitness of the crime was Harry Saunders, 17 years old, a driver employed by McLaughlin, whose home is in Beaver Falls. He was sitting in the sleeping room of the shanty reading a novel when he heard the row. Looking out through the hole towards the stable he saw Willis strike Cummings over the head

with the neck yoke. He did not see Purvis strike Cummings, that having happened before his attention was attracted.

Cummings came here from Pittsburgh two weeks ago. His home is at 4 Boston street, South Boston, Mass. He is about 35 years of age. Purvis is well known in this city. He is a man of about 50, wearing long whiskers and formerly acted as teamster for people in this city. He has been around this section for several years. Willis, whose home is near Rochester, Beaver county, Pa., came here last Thursday and was put to work hauling sand by McLaughlin. Willis had some money when he came.

ARREST OF PURVIS.

Walked Out When Officers Came, But Was Followed and Arrested.

The shanty where the men live is divided into two compartments, one eating and one sleeping. In the sleeping room the bunks are ranged in tiers around the room. When a News Review reporter went to the place at 5 o'clock yesterday afternoon the men were at supper. Inquiring for some details about the affair he was told that Purvis, who sat at the head of the table, could tell him. Purvis replied that he knew nothing about it. At this point Deputy Sheriff Gill came and was followed by Officer Jack McDonald. Purvis, who had not known Gill, recognized McDonald as an East Liverpool officer and arose from the table, walked over to the stove, took his hat from the wall and walked out. With his departure the others talked more freely and it was not long until Gill and McDonald learned that the man they wanted was the man who had gone. Hastening after him they first searched the big stable and then the smaller one, but without finding him. McDonald started towards the hill and when he reached the Hookstown road saw Purvis hiding behind a tree. He called to Purvis to come down, that he wanted him. Purvis walked to the edge of the hill above the road and shouted: "What do you want with me?" McDonald told him to come down and they would tell him. Purvis replied: "You are a Liverpool officer and haven't any business with me."

McDonald by this time had come close enough to grab Purvis and dragged him down to the road, where he and Gill took him in care. A little further on they met Constable R. E. Allison, of Hancock county, who placed Purvis formally under arrest. Purvis was taken first to the shanty, where he packed his grip and then to the home of Archie SeEVERS, where he changed his clothes and later in

the evening he was taken to New Cumberland jail by Constable Allison and Stephen SeEVERS in a buggy.

JOE, THE MULE DRIVER.

Takes Three Street Car Rides and Then Makes His Escape From Town.

Meanwhile Joe, the mule driver, had made two round trips to Liverpool on the street car, once in the morning and once in the afternoon. He crossed again and was last seen going down Broadway by Motorman McKinnon. The city officers had been notified during the afternoon and Davidson and Grim watched the afternoon train and when the packet Kanawha, which left at 4:30 for up river points. Nothing was seen of Willis at either. In the evening Harry Saunders and Neal Steele, colored, two of McLaughlin's men who knew Willis, were brought to the city to assist the officers in looking for him.

Purvis is a dark complexioned man, or about middle age, weighing 180 pounds, and has a scar over his right eye. He is about 5 feet 7 inches in height. He wore a corduroy cap when last seen.

he visited the stable and found two empty quart whisky bottles, evidently the cause of the trouble, which he threw into Mark's run.

Purvis admitted to the men in the Shanty that he struck Cummings. Later when he found Willis had escaped he said Willis had struck him.

Cummings, beyond the groan uttered when felled by Willis, has not given the slightest sign of animation.

Last evening at city hall when the arrests from the raid were being brought there Officer Bryan noticed a man standing on the corner of Third with a scar on his left cheek. Officer McDonald went over and asked the man to come to city hall, which he did. After a brief inquiry it was found that he was not Willis, whose scar is over the right eye. The other man works as a bricklayer in town.

This is the second murder case in South Side within four months. Thanksgiving Albert Johnson, colored, killed Mrs. Mary Kinders, wife of a boarding house keeper employed by the men working upon Contractor McNally's railroad construction gang. Johnson is now in New Cumberland jail and will have his trial in a month. It is likely Purvis will be tried at the same term of court.

LAZARUS HAD HIM.

Beaver County Detective Arrested a Man Like Willis Last Evening.

It was reported this forenoon that Willis had been arrested at his home in Rochester. The News Review telephoned to County Detective Lazarus, who had not heard of the crime. When he was given Willis' description, he said: "Oh, my. Why we had a fellow answering that description last night arrested on a petty charge, but we didn't know of the Chester case. I'm going right out to rearrest him."

Prosecutor A. J. McKenzie, of Hancock, arrived here at noon and went direct to Chester, where he is now investigating the affair.

Dr. Laughlin dressed Cummings' wounds today. The injured man is still paralyzed and unconscious, but is sinking rapidly. About 2:30 he was able to swallow some nourishment.

GAS IGNITED.

John Orr Thought the Match Had Gone Out, But It Hadn't, and He Was Burned.

John Orr, the janitor at the Grant street school house, had a narrow escape yesterday afternoon. He went to the building for the purpose of lighting the gas in the heater. He threw a match in and turned the gas in, but it didn't light. Thinking the match had gone out he opened the door of the heater and looked in just as the gas ignited. He was severely burned about the face and hands, but is still able to attend to his duties as janitor.

ASSAULT AND BATTERY.

Martha J. Smith Claims Her Son-in-Law, Ed. R. Frederick, Misused Her.

Martha J. Smith, who lives on Second street over the blacksmith shop of M. Brozka, called on the mayor this morning and filed a charge of assault and battery against her son-in-law, Ed. R. Frederick. She claims that Frederick assaulted her, knocked her down and choked her. He was arrested by Officer Wood and will get a hearing tonight at 8 o'clock.

MEETINGS.

A Large Number of Them Will Be Held This Week to Transact Business.

A large number of meetings will be held this week. The board of education meets tonight, trades council meets Wednesday evening, the Republican central committee meets Wednesday evening, the library directors meet Friday night and the water works trustees hold their annual meeting Friday night.

FUMIGATED THE HOUSE.

There Is Now Not One Case of Diphtheria or Scarlet Fever in the City.

Sanitary Officer Burgess Saturday afternoon fumigated the home of George Beggs, Nottingham street, the diphtheria patient having entirely recovered. There is now not a case of diphtheria or scarlet fever in the city, and it has been several days since a case of typhoid fever has been reported.

MACRUM'S CASE.

WHEELER WANTS THE MATTER INVESTIGATED.

He Proposes to Introduce a Resolution in the House of Representatives.

Washington, March 18.—(Special.)—The Macrum matter is not to be permitted to rest in the official pigeon holes if Representative Wheeler, of Kentucky, can prevent such a disposition of the matter. He proposes to put new life into the subject by offering a resolution directing the house committee on foreign affairs to investigate—first whether there is any truth in the statements made by the former consul and printed in the newspapers, and for that purpose to send for persons and papers necessary to discover the facts; second, if any substantial grounds is found for the assertion that official mail has been opened to inquire what action, if any, this government has taken, and if none has been taken, why not.

Mr. Wheeler is of the opinion that the answer made by the state department is no answer at all, hence his effort to get the house committee to dig into the case and have an official record made of Macrum's complaint. He disclaims any idea of making political capital, but is very doubtful if he will be able to convince the leaders of the house that he is actuated by anything higher than patriotic motives. For that reason the resolution is likely to take its natural course, which is to sleep peacefully in the files with thousands of other bills and resolutions which have never been acted upon.

ANNUAL CLEANING.

Has Been Delayed This Year on Account of the Exceedingly Bad Weather.

The annual spring cleaning in the city usually takes place about March 15, when the health officer and street commissioner serve notices on the residents to clean up their properties. The cleaning this year has been delayed on account of the bad weather, and the notices will not be served until the bad weather is over. It would be impossible at the present time to clean the lots and alleys and put them in good condition. As soon as the ground dries the notices will be served and the city given a thorough cleaning.

Seriously Ill.

The many friends of Miss Jennie Lindsay, of Hoboken, Pa., will be pained to learn that she is seriously ill at her home in that city. Miss Lindsay is well known here and has a host of friends. She was here last summer, and while here was the guest of Mrs. F. A. Sebring.

Went Home.

A. G. Minehart returned Saturday afternoon to his home in Youngstown after spending a few days in the city the guest of friends. He is contemplating moving to the city.

This Week.

The water works department will finish putting in the main to the lands of the Riverview company this week. They will then start work on the East End line.

Cleaning Crossings.

The street force is busy today cleaning crossings. If the present wet weather continues for a few days the streets will get another washing.

FIRST U. P. CHURCH FIRE

A Small Blaze Occurred Yesterday Morning.

STARTED FROM THE HEATER

The Department Was Called and It Is Due to Their Good Work That the Church Is Not a Total Wreck--The Fire Was in the Basement and Was Very Hard to Fight

The good work of the East Liverpool fire department yesterday morning prevented a disastrous fire at the First U. P. church, and it is entirely due to their efforts that the church is not a total wreck today.

Yesterday morning the janitor, R. D. Vanfossan, went to the church at 5 o'clock for the purpose of firing up. He built a good fire in both heaters and then went upstairs to one of the class rooms, where he remained until 8:15. He decided to throw some more coal on before he went home. When he opened the door leading to the basement a flood of smoke greeted him, and it took him but a moment to ascertain that the basement was in flames. He ran to the fire department and they made splendid time to the fire. The basement was so full of smoke that the department could not reach the fire through the door and they went to the north side of the building and ran a line of hose through the ventilator. Another line was taken through the lecture room and a hole cut through the floor in the class room, and they worked down on the fire. The fire in the meantime had run up the partition to the time had run up the partition to the auditorium, but the department was equal to the occasion and extinguished the flames upstairs with the Babcocks. The fire was extinguished in a short time, but the department remained at the scene until 8 o'clock.

The fire originated from the new heater, which was put in the church last fall and which is located in the rear of the church. The fire started from the pipes which run under the floor in the class rooms, and here the most damage was done. The joists under the floor are badly burned and it will need a new floor. The partition is also burned, and there are two holes in the floor in the auditorium and the paper is smoked. The loss is fully covered by insurance.

KILNHANDS.

Are Still Short and the Potteries Are Greatly in Need of More Men in This Department.

There is still a scarcity of kiln hands among the local potteries, and some of the plants cannot get enough men to keep the factories going in the proper manner. A manufacturer in speaking of the matter says that they expect relief from the Brotherhood soon, as they positively must have it. He thinks it would be a good idea to take some of the kiln drawers and put them on and let apprentices take the places of the kiln drawers. He says the kiln drawers thus removed could be paid \$1.75 per day for the first year and it would mean an increase of 25 cents per day to him. The manufacturer is of the opinion that the kiln hands would not object to the plan.

MAILED THE BONDS.

The City Will Have Plenty of Cash as Soon as the Bond Buyers Pay Up.

Saturday afternoon City Treasurer Herbert sent to Feder, Holzman & Co., Cincinnati, the street bonds which were sold to them during February. The total amount of the bonds sold at that time was \$29,329, but since then the amount has been cut down \$2,200, leaving the amount of bonds to be sent to the company \$27,129, and the premium was cut down to \$1,806.78. When the funds for the bonds arrive and are placed in the treasury of the city all leaks will be stopped and we will once more have money, and some of the overdrawn funds will be replenished.

SOUTH SIDE.

The East Liverpool Street Railway company have placed large orders for oak ties with farmers residing back in Hancock county and the order is now being filled. Last Friday the first of these ties were delivered, having been brought to the end of the Chester street car line, where they are being piled ready to be brought to Liverpool by the work cars. The ties are very heavy and those who claim to know something about ties say they are the finest seen in this part of the state.

Oscar Allison, who has been under the care of a physician for several weeks, is recovering rapidly.

The Chester Mechanics will meet in their hall over the postoffice this evening and take action on several new candidates.

It is said the school directors of the Grant district schools will hold a meeting after the close of the Chester school to consider the plan of enlarging the school for the next term.

The Chester Street Railway company did an excellent business yesterday afternoon. Many took advantage of the weather and went over to the South Side. Of course the mill proved to be the main attraction, and during the afternoon several hundred persons inspected the new plant.

This morning the mill company commenced to unload the machinery from the seven cars that were brought up from Cumberland junction last Thursday. It is very heavy and the workmen will be glad when it is all in position.

Mrs. Elwood Babb, who has been very ill during the past week, is able to be out.

Carpenters have again commenced to make frames for the new pottery.

William Tindle, of the mill company, spent Sunday in Pittsburg visiting friends.

The list of candidates for the office of sheriff of Hancock county is growing, and Saturday three more men officially made the announcement that they would run. There are now five in the field.

Several families from out of town are expected to move to Chester during the week.

At present there are in the neighborhood of 50 workmen employed at the Chester rolling mill. Very few of them are working for the mill company, but for the firms that have the contract for erecting the machinery.

So far the only person to come out for the office of prosecutor is A. J. McKenzie. He is at present filling that position and is after the second term.

A number of Chester people expect to be called before the grand jury which meets at New Cumberland next Monday. Of course some will be summoned to testify to facts relating to the Johnson murder case, but there are some it is said who will be asked to testify to other things that have taken place in the district since the last sitting of the jury. Sheriff Wilkins will probably be up from Cumberland this week and serve summons.

EAST END.

There is a small foot bridge over the run on Virginia avenue that should be looked after by the council. The bridge is a very frail affair and if allowed to remain in its present condition very long someone may fall from it while crossing over, and then the city will no doubt have another damage suit on its hands. There is a guard on the north side of the bridge, but there is no protection on the south side.

Miss Frienberger, who has been a guest at the home of Mr. and Mrs. J. R. Warner on Pennsylvania avenue for the past week, returned to her home at Canton today.

So far no word has been received in the East End as to the whereabouts of the Penny family, who left their home near Dry Run recently. Mr. Hays, who owns the house the family lived in, is anxious to learn about them, as he does not want to keep the furniture he took from the house and placed in his stable.

The small child of the Conners family, residing on First avenue, who has been under the care of a physician for several days, is recovering rapidly.

Stephen Miller, of Helana, is under the care of a physician.

Frank Powell, of Smith's Ferry, is seriously ill. During the past few days he has had convulsions.

A small child of Ebenezer Miller, of Pennsylvania avenue, is ill with typhoid fever.

Linemen for the new telephone company were working in the East End last Saturday placing cross bars on the new poles. During the week the men will commence to string the wires.

Darwood, the small son of Mr. and Mrs. William Heckathorne, of Pennsylvania avenue, is very ill threatened with the fever.

People who live east of Dry Run, and who have occasion to come to the East End, are wondering when the new bridge will be built over the run. During this kind of weather the bridge is needed more than during the summer weather.

The many friends of Mr. and Mrs. Jacob Schroder will be pleased to learn that a little son came to their home on Pennsylvania avenue Saturday morning.

The small child of Mr. and Mrs. James Miles, who has been ill for the past week, is recovering and will be able to be about within a few days.

During all of Saturday there was a shortage of gas in the East End. The shortage came about noon, just as the housewives were preparing dinner, and they were caused no small amount of inconvenience. The coal supply is not

WINNIE MERCER.

WHAT A NEW YORK MAN HAS TO SAY ABOUT HIM.

Don't Think He Will Fill the Bill on Third Base for the Giants. Other Base Ball Notes.

When the National league purchased the Washington franchise Freedman, of New York, was given his choice of the players and he selected Mercer the first one. In speaking of Mercer a New York correspondent says: "Now it is supposed that Mercer is to fill the gap at third base. The ex-senator played the base for Wagner principally because there was no one else to fill in after Casey had been sold to Brooklyn. There are few men in base ball who will believe that Mercer will prove strong enough in all particulars to become a regular third baseman. Until we know definitely who are to play in New York it is impossible to give a lineup of the team, but one thing is certain, and that is, if such men as Bowerman and Mercer are to be taken as the standard whereby the local club hopes to strengthen the team it is folly to say the outlook is very bright. It would be folly to say that the placing of Mercer on third base puts the infield on a footing with that of Brooklyn, Pittsburg or Boston."

George Carey has signed his contract with the Buffalo team of the American league, and has forwarded it to the Buffalo manager. The local first baseman was well pleased with the terms of his contract. He expects to report for duty as soon as the season opens, between April 15 and 25.

Charles Howard, the colored base ball player who played left field and pitched for the Cuban Giants last year, will be taken to a Pittsburg hospital this week.

The local club cranks are already talking of organizing for the season of 1900. An effort will be made to make the local team the best in the Ohio valley.

The Phoenix ball team will organize early in the season and expect to play several games this year.

OUR ALPHA ADDITION,

Located south of Bank street extended, east of Bradshaw and north of Huston Addition, is taking with home-seekers. These are the cheapest lots in the city within same distance of the Diamond. They lie well and you can reach them by paved streets. It is wonderful why we sell them on the terms. Some get the impression that they are inferior and we want to shove them off. Such is not the case. The lots are slightly sloping, but none to hurt; face to the south and are really worth more money. We sell them on the terms because we are permanently engaged in the real estate business, and, owning this addition, choose to sell these lots in this way. Anyone can afford to buy one. The terms are

\$5 DOWN AND \$1 PER WEEK.

Those country residence sites of 2 and 2 1/2 acres, known as

ROSS' MEADOWS,

is where you ought to build your country home. Roads to Lisbon, Wellsville, Cannon's Mill, Calcutta and East Liverpool cross there, making outlets to every direction. Some fine day call and we will drive you out if interested.

Within the past week we have deeded and sold five of these fourteen lots in the addition joining Oakland. The location and prices are doing the work. Lots 30 x 110. Price \$225. Terms easy.

Our sale of real estate since January have amounted to more than \$25,000. We have customers now for \$50,000 worth. If you have any property to sell, place it with us.

DRIVE OUT THE SALOON.

Drive it out of the nation, and
peace, plenty, comfort and luxuries
will come into the homes of the
working men and mechanics of the
nation.

SAME HERE.

Sheldon's paper of March 15th has
a father standing at a bar drinking
damnation and holding his little son
by the hand. The writer has witnessed
exactly the same thing in this city
of East Liverpool.

DID HE LIE?

Did Dodge lie to the leaders of the
Anti-saloon league? Rev. Baker em-
phatically asserts that he did, and
Rev. Baker is backed up in this as-
sertion by several members of the
senate. And now the query is: "How
much did Dodge receive for his vote?"
And the next question is: "How
much did it cost the Liquor league
to defeat the Clark bill?"

SALOON OR NO SALOON?

This should be the question be-
fore the people along the line of the
liquor traffic. The question should
be taken out of politics. It is an ab-
solute burden of infamy, too heavy
and damnable in its nature and char-
acteristics for any party to carry.
The curse of God is on the saloon,
and His curse will follow any party
which sanctions and upholds the evil

and crime. This may sound extrava-
gant to some of our readers, but it
is a plain statement of a very plain
fact. Politicians all over the nation
exhibit a cowardly fear of the power
of the liquor league and of the sa-
loon. No sane man will attempt to
deny this, and full evidence of its
truthfulness exists in the city of East
Liverpool, and has existed, in coun-
cilmanic chamber as well as else-
where. The vicious minority in the
nation, the state, the county and the
city has been in control, and it is
full time that the grand majority of
clean citizenship shall claim its right
and assume control. Anti-saloon
leagues should be formed on every
hand and the sinews of war placed
in their treasury. Unity of purpose
and action have been the powers
which have been winning victories
for the liquor league and damning
the people. Our legislators must be
forced to grant us the option of "sa-
loon or no saloon." God speed the
day.

STARK COUNTY'S CLAIM.

In the Judgeship Contest—A Com-
parison Between Stark
and Carroll.

Editor News Review.

The candidacy of Attorney Ralph
Ambler, of Canton, for common pleas
judge, has attracted attention to the
fact that the sub-division as consti-
tuted now has a representative on
the bench from each of the three
counties. This would appear on the
face of it to be a fair division, but a
study of the facts show that it is
not.

Carroll has about 17,000 people,
while Stark county has 90,000. In
Carroll county court is held only a
few weeks in a year, while in Stark
two courts are in session most of
the time, owing to the enormous
amount of work to be taken care of.
This is a comparative showing which
demonstrates that Stark county
should have two judges instead of one
as at present.

The judgeship for which the nomi-
nation is to be made this spring, was
created in 1886, for Stark county
alone, because of increased business,
and the increase has continued from
that time to the present, while in
Carroll county the condition is exact-
ly the reverse, the business of the
courts having actually decreased.

The above ought to be a sufficient
answer to every reasonable man to
the plan that each county should have
but one judge. Mr. Ambler is a Stark
county man, an able lawyer and well
calculated to make an ideal judge.
There could be no mistake made by
the people of Columbiana county in
selecting him.

There are those who think Mr. Am-
bler has been handicapped in his race
by the fact that he is in no sense a
politician, but the writer is of the
opinion that the great mass of voters
will appreciate this fact and will be
the more eager to extend their suf-
frages to the man who depends large-
ly upon the merits to fill the responsi-
ble office which he seeks.

Mr. Ambler is daily receiving as-
surances that he is the choice of the
majority of the people of this, his na-
tive county, for judge.

AN UPRIGHT JUDGE.

A Good Citizen and a Man to Pattern
After—A Few Words About
Judge Taylor.

The career of Judge Isaac H. Tay-
lor, of Carrollton, has been such as to
excite admiration of a host of friends.
His probity, his unflinching loyalty to
truth and justice, his determination
to do right under all conditions and
all circumstances, are all attributes
which make him a conspicuous exam-
ple of American manhood—an exam-
ple which the young man of today
will do well to follow.

Years ago Judge Taylor was sent
to congress, where he served with dis-
tinction for one term. His district
was gerrymandered, throwing Carroll
county into the same district with
William McKinley. Judge Taylor
withdrew and sacrificed further con-
gressional ambition, leaving Major
McKinley a clear field. He was then
appointed to the bench, which he has
since occupied, having been twice
elected. He now stands for renomi-
nation and reelection. There is no
good and sufficient reason why Judge
Taylor should not be the choice of
the Republican primaries held in this
sub-division.

Judge Taylor is in the height of
his career and his mental acumen is
unsurpassed by any jurist in the
state. His services are invaluable
where he is, and he should be re-
tained.

A SALOON WAS RAIDED HE IS A SPLENDID MAN

O'Malley's Place Raided by the Police Last Night.

SEVERAL VICTIMS WERE THERE

They Were All Hauled to the City Lockup in the Patrol. Put Up Security For Their Appearance and Will Get a Hearing This Evening.

The saloon of Michael O'Malley was raided last night and the proprietor and six victims were captured.

The raid occurred between 9 and 10 o'clock, and Officer White was the chief operator in the affair. He heard the men in the saloon and secured the services of Officers Davidson, Mahony, Wood, McDonald and Bryan. They surrounded the place and then Officer White pulled off a door in the rear of the building and walked into the wine room of the saloon, where he found the men enjoying themselves, thinking they were safe. They were too much surprised to make any attempt to escape. The patrol was called and the whole bunch was loaded in and taken to city hall, where they put up security for their appearance this evening.

When they arrived at city hall the men gave their names as Isaac Eoff, John Haley, William McKeever, Chal. McClurg, Andy Murray and Amos Reed. A charge of loitering in saloons on Sunday was placed against them and they put up security for their appearance this evening. A charge of keeping his saloon open on Sunday was placed against O'Malley.

THREE DRUNKS.

The Mayor Disposed of One Case and Will Hear the Others Tonight.

Ernest Kretshmer was found lying in the rear of the National house last night by Officer Davidson. He was drunk and had taken the sidewalk for a place to sleep. The officer took him to city hall and this morning the mayor fined him \$7.60. He didn't have the cash and is still in jail.

Officer Mahoney last evening arrested Michael Malone, who was drunk and disorderly. He put up security for his appearance and will call this evening and settle with the mayor.

Thomas Connors, of Chester, came to the city Saturday evening and got drunk. Grim got him and he was conveyed to the city jail. He put up security for his appearance this evening.

Short Sketch of Hon. C. C. Baker's Life.

WOULD BE RIGHT KIND OF MAN

To Represent the District in Congress and Would Serve His Constituents Well--He Served Three Years During the Rebellion, With Honor to Himself and Country, and Was Auditor of This County For Two Terms.

Did it ever occur to you that the population of the United States at the present time is about seventy millions, and that of this seventy millions only about fifty thousand are lawyers, that is one lawyer to every fourteen hundred of the people.

On the other hand did you ever stop to think of the great number of lawyers who are holding office as compared with the total population. National, state and county, legislative, executive and judicial. You will find a great proportion, and all the best offices filled by lawyers.

They make your laws, they execute your laws and they judge your laws.

The only thing you can do is to find fault with the laws, and when it comes to a nomination or election you are told that the only person who is competent to represent you in the office to be filled is the "Wind Jammer" lawyer, who is always a candidate, because he can make a speech.

They have made us believe that a certain part of the offices can be filled by lawyers only, and they are trying hard to create the belief that the balance must be filled in the same way; only one year ago we had a lawyer candidate for the office of sheriff of this county, who tried hard to convince the people that the sheriff's office could be managed properly by no one but a lawyer.

What do you think of this, Mr. Merchant, Mr. Manufacturer, Mr. Farmer, Mr. Mechanic, Mr. Laborer and Mr. Citizen generally? Are we to relinquish our rights to the scheming lawyer politician because he can make a speech?

Are honesty, industry and ability to count for nothing, and are all the lawyers to fill all the offices because they can make a speech?

Using this same argument it will not be long until they tell you the offices of mayor, councilmen, clerk, treasurer, assessor, constable, etc., must be filled by lawyers, because they can make a speech.

Must we turn over the entire government of the nation, state, county and township to the lawyer, because he can make a speech, without reference to his reputation for truth, honesty, industry and ability?

Do you think that this great country of ours was built up and is maintained by wind, or do you think that that which is best about our country has been the result of careful, painstaking effort, business ability, honesty and good judgment?

THE S. G. HARD CO.

LAWYER IN POLITICS

He Has Gathered Up the Best Part of the Offices and

IS NOW AFTER THE BALANCE

Great Danger to the Public Welfare Unless a Halt is Called--A Few Pertinent Points That It Would Be Well For the Voters to Consider Before They Cast Their Ballots.

A representative of this paper had the pleasure of meeting Hon. Charles C. Baker, of Alliance, when he was in this city a day or so ago. At this time it is not necessary to repeat that Mr. Baker is desirous of filling Hon. R. W. Taylor's seat in congress. This is well known throughout the Eighteenth congressional district of Ohio. However, there are many points of interest in Mr. Baker's life that are not known to all persons.

Charles C. Baker was born of humble but industrious parents in Pennsylvania. When he was 10 years old his father, John Baker, moved his family to Ohio. They settled in Unity township, this county. There the subject of this brief sketch labored and grew toward robust manhood until he was 18 years old.

At that time the horrors of the greatest war of the century, if not of all time, launched themselves in an effort to disrupt the glorious union. Though a boy then Mr. Baker enlisted with Co. C., Sixth Ohio cavalry. For three years he fought for all that the country now holds dear. After the war he returned to peaceful pursuits on the farm. That work claimed his attention until 1869 when he came to Salem and was appointed deputy collector of internal revenue by the late Jesse Duck, known to all Salem citizens. Later Mr. Baker associated with John R. Vernon in the publication of the Journal. These varied employments gave him that best of all schooling, a liberal, general education, and admirably fitted him for his enviable public career to follow later.

In 1880 this farmer, printer and master of politics was elected auditor of Columbiana county on the Republican ticket. He served two terms in this office with honor to himself and credit to the county. As auditor he established a precedent for plain, business-like administration. The record he made there cannot be surpassed if equalled.

After leaving the office Mr. Baker located in Alliance as contracting agent of the Penn Bridge Co., of Beaver Falls, Pa. This work has brought him in contact with state, municipal and county officials of various states. This has served to broaden and develop the man, until today he stands as a representative American citizen in whom the nation may find one of her strongest supporters. His extensive experiences have brought success to himself, as well as to those whom he has represented.

In Alliance and Stark county Mr. Baker has had honor thrust upon him by being elected a member of the board of education, water works trustee and president of the Alliance Bank Co. He was also appointed trustee of the construction of the

magnificent court house at Canton.

All this has fitted Mr. Baker for higher public service, entitle him to it and insure a faithful, representative performance of duties should he be fortunate enough to secure the seat in the national house to which he now aspires.

Mr. Baker is a personal friend of President McKinley, as well as a friend of all with whom he has come in contact during his years of public and private life. Possibly the briefest summing up of the man is contained in these words: he is ever mindful of his friends. Is there anything higher or better to be striven for?

CHANGED THE NAME.

Reorganization of the Pleasant Valley Creamery Company This Morning

This morning Ed Hassey and Thomas F. Manley left for Kensington, where they attended a meeting of the stockholders of the Pleasant Valley Creamery company. The company was re-organized this morning and new officers were elected. The company will be known as the New Pleasant Valley Creamery Co., and has a capital stock of \$4,000, paid up. Hassey and Manley own 21 of the 40 shares of stock. The plant has been idle for the past four months, and it is the intention of the new owners to place the plant in operation immediately.

Rather Cold Blooded.

Of the tactics of humanity there is no end, but there are some simple rules for the individual foot soldier to remember when lost in the chaos of battle. If you cannot bayonet your enemy, shoot him. If he goes away, aim at the base of his spine. But do not let your attention be distracted from business by the consideration that other people are making a mark of you. It is your duty to kill the highest possible number of those opposed to you, not to save your own skin.—"How Soldiers Fight," by F. Norreys Council

TAYLER'S TRIUMPHS.

HIS CREDITABLE CAREER IN THE

Buckeye State.

In presenting such rehearsals of semi-public opinion and conceded facts as are contained in the appended extracts from the views of recognized party leaders and newspapers of the country upon a subject which just now is of vital interest to the Republicans of the Eighteenth congressional district, no introduction seems necessary. Such words need neither apology nor commendation. They speak for themselves and present to the people of the district their congressman in a light that seems to direct them clearly toward their duty.

Youngstown Indicator.

The work done by Congressman R. W. Tayler during the fight to exclude Roberts from congress is apt to bear fruit during the coming campaign, in which Mr. Tayler seeks a re-nomination to his present position.

Whatever may be thought by Republicans hereabouts of Tayler's work as a congressman, there is no denying the fact that he has won attention and commanded notice in his conduct which excluded Roberts from a seat in congress. Eastern papers have been full of praise of Tayler's conduct of the case and of his bearing throughout the whole affair, and it's dollars to doughnuts all this will have a considerable bearing on the coming primaries and conventions.

Perhaps Mr. Tayler has received no higher praise than that which the New York Journal bestows on him in its issue of Monday. Coming from the great Democratic paper of the east, the following editorial will be regarded as quite a puff. The Journal says:

"Now that the country has been spared the disgrace of seeing a polygamist in congress it ought not to forget the men that did the work, to which it owes its escape. First among these is Mr. Robert W. Tayler, of Ohio. Mr. Tayler met the challenge of the Mormon priesthood on the very threshold of the house. On the first day of the session, when the list of representatives was called, Mr. Tayler rose when Utah was reached and objected to the seating of Roberts. He offered a resolution providing for the appointment of a select committee to investigate the right of the polygamist to his seat. The next day he led the debate on this resolution, and when it was adopted he was appointed chairman of the investigating committee, and in that capacity he put nearly two months of solid work on the case, and the result was the splendid triumph of last week.

"Mr. Tayler deserves well of his country."

Washington Special.
Leader of the Republican majority and chairman of the ways and means committee, Hon. Sereno E. Payne, says: "I talked over young Tayler with Reed, before he appointed him even a member of the elections committee in his first term. The speaker wanted a lot of good lawyers on this committee, so that the cases might not be too long drawn out and had heard that Tayler was a promising barrister. In appointing him Reed said that he would have a chance to display any ability he possessed. There was a good deal of curiosity regarding him from the first, as he represented McKinley's district and some of us expected him to try to do great things and fall down in the endeavor. If he had attempted to do so, he would have been a miserable failure. However, he performed all the little duties that came to him with such promptness and ability that heavier honors were offered him,

and he is today one of the most highly respected and most influential members in the entire house. I can say to the people of the Eighteenth district of Ohio that the lower house and the country owe their voters a debt of gratitude for selecting a man of such signal ability as their representative."

TRAMPS.

Residents of Seventh Street Think
They All Visit That Street
Except When It Snows.

When a tramp comes to the city he almost always visits Seventh street, and the residents of that part of the city are at a loss to understand it unless it is because of their unfeeling generosity to the Weary Willies. Last week at least a dozen of the individuals called at the back doors along the street and got something to eat. The day it snowed the residents figured that they would have an easy time of it, as they would just put the tramps to work shoveling snow when they applied for grub. Not a tramp appeared on the scene and the residents had the work to do. The next tramp that comes to that street will get a chilly reception.

TRANS-ATLANTIC TRAVELERS

Furnished Special Attendants by the
Pennsylvania System.

The bureau of attendants for trans-Atlantic travelers established in Jersey City and New York City twenty years ago by the Pennsylvania system, has proven a great convenience to persons making European trips and to tourists arriving in America at that port. It will be particularly convenient for visitors to the Paris exposition because the departure docks of most of the Atlantic steamship lines are convenient to the new Jersey City passenger station of the Pennsylvania Railroad company.

This bureau consists of experienced agents whose duties are to meet passengers arriving in Jersey City and New York over the Pennsylvania lines and assist them in arranging for trans-Atlantic trips via any of the steamship lines by conducting them to steamships and aiding in preparations for a trip abroad.

These agents will provide cabs operated by the Pennsylvania system and aid passengers with their baggage. They are fully posted on matters pertaining to steamships leaving New York, and arrangements can be made through them for procuring steamship tickets in advance.

They also meet incoming steamships to aid travelers in shaping details for continuing journeys from New York over the Pennsylvania lines by furnishing tickets, arranging for the transfer of baggage from steamship docks after it has been passed by customs inspectors, and having the same checked through to destination. They will reserve sleeping car accommodations and relieve persons of the foregoing details, making themselves useful as attendants and guides free of charge.

Further information on the subject may be obtained by addressing the nearest Pennsylvania lines ticket agent, or O. L. Kimball, assistant general passenger agent, Cleveland, Ohio.

LAND ARMS IN LUZON

Rebels Preparing for More Active Fighting.

AGUINALDO'S CAPTURE NEEDED.

Spaniards and Others Who Know, Say it Would Stop the Agitation—Mabini Kept From the Public—Insurrectionists Active—Flores Trusts Americans.

MANILA, March 19.—General Otis considers Manila the most troublesome center in the situation. The insurgent junta here, in conjunction with that in Hongkong, is growing active. The military authorities have been forced to put a stop to Mabini's intercourse with the public. The local and foreign press considers his recent utterances calculated to incite the Filipinos to a continued revolt and prejudicial to American control.

Flores, who has just arrived here, says he comes trusting to American leniency, and that he would not have dared come to Manila if Spain were yet in control. He cherishes the hopes and aspirations which actuated him when in the field, and desires to watch congressional action upon the question of the Philippines. The insurgents, he says, do not expect to vanquish the Americans, but are maintaining a resistance with the idea of forcing congress to accord them the best possible terms.

A number of representative insurgent leaders from different parts of Luzon have recently been in conference in Manila. Some have been placed under arrest, but the others thus far have not been interfered with.

Louis Spitzel, head of the firm of Louis Spitzel & Co., contractors to the Chinese government, and himself a suspected filibuster, came from Hongkong to Manila last week, and was temporarily detained in custody on suspicion. It is asserted upon good authority that three loads of arms and ammunition have recently been landed on the east coast of Luzon. Captain Taylor, of the Thirty-ninth regiment, recently captured twelve new Mausers near Calamba.

Reports are current here of active rebel reorganization in the province of Morong, where the insurgent leaders are said to be assisted by prominent Spanish residents.

Inhabitants of this province who are now in Manila have been advised not to return to their homes, but to remain under the protection of the Americans.

It is also reported that the rebels are reorganizing in the province of Zamboanga, under Mascardo. Brigands are committing atrocities in the province of Nueva Ecija, where they have murdered 20 natives and Chinamen. Eight other murders have been committed near Tarlac. The Nueva Ecija insurgents are heavily taxing local traders and farmers, with the result that business is paralyzed and there is a general scarcity of food.

The funds for maintaining this guerrilla warfare are collected from the various towns of the island, whether occupied by the Americans or not, even including Manila.

In the province of Albay the insurgents have ceased harrassing the Americans, owing, it is reported, to a lack of ammunition, but they continue ravaging the country side, robbing and looting. The natives are tiring of this sort of thing and threaten to turn against the marauders. Already the townspeople of Legaspi, Albay and Donzel are slowly returning to their homes.

Major Allen, of the 43rd regiment, has been appointed military governor of the island of Samar, where Lukhan, the former leader of the rebels in that locality, is still in the mountains.

General Kolbe has opened 20 ports in the southern part of Luzon and in the islands of Samar and Leyte, the result of which is to stimulate trade there although only temporarily, as the country opened is non-productive and apparently non-consuming. Owing to the political conditions of the last 12 months, products accumulated during the blockade. These will be shipped to Manila and then the ports will be empty.

Evidence accumulates of the treason and perfidy of the municipal presidents in the provinces of General MacArthur's district. The presidents of several towns in Lepanto and Union provinces have declined to continue in their positions, saying they do not desire any further identification with the Americans. Travel between the towns garrisoned by the Americans is becoming more dangerous. All wagon trains must be escorted by heavy guards in order to insure their safety.

Two ambushes were narrowly averted recently; small traveling parties are attacked; single travelers frequently disappear or are found dead.

Spaniards and Filipinos who are conversant with the Tagalog character unite in asserting that Aguinaldo's capture would terminate the revolution. Three months have passed since he was act-

ively pursued.

Today will sail the expedition to gar-rison the ports of Northern Mindanao. It will be accompanied by the gunboats Manila and Yorktown.

The expedition will take the Fortieth volunteer regiment for the Camarines. If more troops are needed the Thirty-first regiment, now in southern Mindanao, and the Twenty-third regiment, now in Jolo, are available.

Filipino Natives Sentenced to Hang.

MANILA, March 19.—9:40 a. m.—A military commission at Bayambang has sentenced to be hanged on March 30 two natives, who have been found guilty of murdering their countrymen.

SPEECHES ON QUAY CASE.

Some May Be Delivered this Week in Senate—Porto Rican Bill Caucus Scheduled.

WASHINGTON, March 19.—There is difference of opinion as to whether under the agreement to take up the Quay resolution for consideration on the 3rd of April, it can be called up even for speeches in the interim. In the senate it is probable, however, that some addresses may be presented on the subject during the present week if no other matter presses for consideration. An effort will be made by Senator Davis to get up the Spanish claims bill.

In executive session there will be an attempt made to secure the confirmation of Hon. W. D. Bynum as appraiser at New York, which attempt does not promise to be immediately successful. The Hay-Pauncefote treaty will be considered if opportunity presents, but the present indications are against an early move in that direction.

The caucus of the Porto Rican committee will begin its sessions in earnest today, and a strenuous endeavor will be made to get the bill in such shape as to make it acceptable to practically all the Republican senators as early as late as possible. Senator Foraker is now engaged in preparing amendments to the government bill, and he will exert himself to the utmost to perfect the bill during the present week. If he succeeds in getting a bill which the Republicans will accept the measure will then be pressed with all the speed and energy possible.

It now looks as though the week in the senate would be spent largely in waiting upon the Republican caucus committee. The Porto Rican governmental bill will continue to hold its place on the senate calendar as the unfinished business, and some dilatory speeches doubtless will be made upon it, but it will not be pressed as it would be if there was hope of its passing soon. The Republican senators are opposed to present action on the bill, and no effort will be made to arrive at final results until the caucus committee makes its report.

PORTO RICON BILL MAY PASS.

Likely to Go Through the House Today—Wheeler May Present Himself.

WASHINGTON, March 19.—Today, before the district business is taken up, the Porto Rican relief bill, with senate amendments, will be called up and passed. The senate amendments probably will be agreed to without much opposition.

General Joseph Wheeler may present himself at the bar of the house to be sworn in sometime during the week. So far as can be learned there is no objection on either side to his admission, if his resignation as a brigadier general in the army shall have been accepted before he presents himself. The case, however, may be referred to a committee.

THE DEWEYS GOING TO EUROPE.

Mrs. Dewey Chairman of Cuban Orphan Asylum Committee.

WASHINGTON, March 19.—Admiral and Mrs. Dewey left here for a trip south. They expect to visit Savannah, Macon, St. Augustine, Jacksonville and Palm Beach. The admiral and Mrs. Dewey probably will not return to the city until the latter part of next month, at which time it is said they will sail for Europe, visiting the exposition some time during the summer.

Mrs. Dewey has been made chairman of the battleship committee in aid of the children's Easter festival for the Cuban orphan asylum.

RAIL LAID ACROSS TRACK.

Attempt Made to Wreck Train on the Lake Shore.

CLEVELAND, March 19.—An attempt was made to wreck the Lake Shore fast mail westbound, at Olmsted Falls, about 20 miles west of here. A rail had been laid across the track. The engineer saw the obstruction in time to apply the air brakes.

The front wheels of the locomotive struck the rail, but the engine remained on the track. The engineer says he saw three men run away from the spot where the obstruction had been placed.

THE BOERS GRATIFIED

McKinley's Note to England Appreciated.

MORE PRESSURE IS EXPECTED.

Reitz Said He Believed United States Would Force Settlement, Satisfactory to Two Republics—Expects Burghers to Fight to the Last.

LONDON, March 19.—The correspondent of The Times at Lorenzo Marques, telegraphing under date of March 16, says:

"State Secretary Reitz, of the Transvaal, in the course of an interview, has said that the Transvaal government considers the American reply highly satisfactory and that he believes the United States will bring such pressure to bear as will result in a settlement agreeable to the people of the two republics.

"While admitting the seriousness of the situation, Mr. Reitz says he is convinced that the burghers of both republics will enthusiastically defend the independence of the Transvaal to the last."

THE NATIVES ARMED BY COL. BADEN-POWELL.

Did So Because He Said Boers Bombarded Stadt, in Which Were Women and Children.

LORENZO MARQUES, March 19.—A dispatch from Mafeking, dated Saturday, March 10, said:

"The garrison is holding its own. We have heard numerous rumors that the siege will be raised, but so far that is not the case. We are pegging along patiently on quarter rations, supplemented by the occasional capture of cattle.

"Our home made gun erratically bombards the Boer trenches. Horrible stories are current that the Boers are inflicting nameless tortures upon captured runners. These may not be true, but they are tending to inflame native passions to such an extent that it may soon be impossible to hold the natives in check.

"Owing to the Boers having deliberately bombarded the native stadt, which is full of women and children, Colonel Baden Powell has armed the natives, but he has only allowed them to act on the defensive, although they have clamored to be allowed to go out and attack at the point of the assegai.

"They will be prevented as long as possible from inflicting reprisals on the Boers."

BOERS LAY DOWN ARMS.

Report Transmitted by Roberts—Mafeking Reported All Well on March 16.

LONDON, March 19.—The war office received a dispatch from Field Marshal Roberts, dated Bloemfontein, Sunday, March 18:

"The guards brigade returned yesterday from Norval's Point. Several burghers have laid down their arms to General Pole-Carew at Edenburg and elsewhere.

"The officer commanding at Belmont reports that some deserters have come in with a Maxim, a nine pounder and another gun. Another nine pounder has been brought into Colesberg. The cavalry brigade has gone to Thaba Nchu in order to reassure the inhabitants of that district and to distribute copies of the proclamation to the people of the Free State. These proclamations are being eagerly sought after.

"Lord Methuen reached Warrenton on March 16. He was in time to prevent the Deviation bridge from being completely destroyed and to secure the Pont on the Vaal.

"The English mail was dispatched from here by rail yesterday, and tomorrow the regular railway service with Cape Town will be reopened.

"Mafeking reports that all was well on March 16."

Corps of Boer Women Formed.

LONDON, March 19.—A dispatch to The Daily News from Bloemfontein, dated March 16, said in part:

I am told that a corps of 2,000 women has been formed at Pretoria. It is called the Amazon corps. All the members are uniformed in kilts and are armed.

The linemen of the American District Telegraph company have completed the work of placing call boxes in the business houses of the city and will leave the city this afternoon. There are 30 call boxes in use here and the service started this morning.

A. D. Zahninzer, district elder of the Free Methodist church of this section, will be here one week from next Friday for the purpose of attending a quarterly meeting of the congregation of the Chester Free Methodist church. He will be in the city several days.

A small fire occurred at the home of George Beggs in Huston's addition Saturday. The house was about to be fumigated and a fire in one of the rooms was extinguished, and a comfort was hung up in front of the grate to keep the fumes from going up the chimney. It was soon discovered that the fire in the grate had not been extinguished, as thought, and the comfort caught fire, and was burned to the mantel. The carpet about the fire place was burned, but the fire was extinguished without the aid of the department.

TO EXTEND A CALL.

Reverend Gorrell Likely to Be the Next Pastor at the Christian Church.

The official board of the Christian church will meet in the church next Sunday morning before the regular service for the purpose of extending a call to Rev. J. W. Gorrell, who had charge of the services yesterday. Reverend Gorrell is pastor of the Christian church at New Philadelphia.

Card of Thanks.

For myself and congregation I wish in this way to express our thanks to the firemen who so promptly responded to the call for help, and who, in spite of the suffocating smoke, so patiently and perseveringly did their work in putting out the fire in our church on Sabbath morning. A little delay and less energetic effort on their part and the church would soon have been in ruins.

We would also express our gratitude for the many expressions of sympathy by members of other congregations and for the generous offers of the use of their places of worship that came from pastors and official boards of other churches. These expressions of sympathy and offers of help are among the compensating benefits of such calamities.

We are glad to be able to say that our church is not so badly damaged, but that we can continue to hold all our regular services in the audience room.

MORE ABOUT THE SCALE

Some Things the Committee Decided Upon

OF INTEREST TO THE POTTERS

The Crockery Trade Is Very Good and Orders Are Increasing—A Monument to Be Erected to the Memory of the Late Joseph Barker.

Some interesting facts in regard to the uniform wage scale are published this week in the Commoner and Glassworker.

The list as adopted is the average price paid in the potteries throughout the country, with the addition of conditions which will be beneficial to both manufacturers and operatives.

In the clay shop it is based and fixed on ordinary shapes. All extraordinary or difficult shapes are to be paid extra, according to the merits of the article, which will be determined by a standing committee of manufacturers and operatives.

In the kiln shed and dipping department the list is set according to the cubic measurement system, with provisions that unusual hardships, such as carrying ware down steps and long distances from the kilns, be paid for. This will make conditions much more equal, and be an advantage to manufacturers, from the fact that it will make it easier to get kiln hands in inconvenient shops.

In the mold shop it is an average list with the conditions about the same as heretofore.

In the slip house the piece work system was adopted, fixing the price at so much per leaf.

Owing to the great variety of methods and vast difference in prices paid in the printing and decorating department, it was thought advisable by both parties to dispense with that part of the list until such time as a proper base or method could be found upon which to make a uniform list in that branch. But as a means of protection to the printers and decorators, the committee had an explicit understanding that prices in that department were to remain the same as heretofore in the different potteries. So it behooves the printers and decorators to stand by the Brotherhood and try to study out some plan by which they can have a uniform list.

The list is to go into effect the first pay after May 1, 1900, and it will take fully all of that time to make the necessary preparations for the list to be put into effect.

The manufacturers have already announced their committees, who are to settle difficult shapes and other disputes arising from time to time. The committee in the east is: Wm. Burgess, Charles Cook and Moses Callier. In the west, Jos. G. Lee, W. L. Smith and Hal Harker. The operatives' committee has not yet been appointed.

Some minor details of the scale are being settled this week by sub-committees at East Liverpool.

According to the list adopted some will be compelled to suffer a reduc-

tion, while others will receive an increase, but that was a thing the potters well understood. They realized that some would be compelled to make a sacrifice in order to accomplish this great end, but they were willing to do that in order to place all on an equal footing.

TRADE IS GOOD.

Orders for China Are Being Placed in Greater Volume as the Days Lengthen.

China, Glass and Lamps this week says: "Trade conditions in the china line continue satisfactory and orders are beginning to be placed in greater volume as the days lengthen. Some of the potteries report business enough on hand to crowd them, though this includes orders given them some time ago. In several cases no travelers have been sent out yet, there is enough to do at present without any solicitation of trade. Most of them are on the road, however, as they want to keep in touch with their customers whether the latter want goods just now or not. The potteries are all at work and in better shape for efficient production than at any former time. Both the quality and style of their goods have been greatly improved, and this is bound to result in increased patronage by consumers."

NEWS OF THE POTTERIES.

Items of Interest to the Trade and Potters Picked Up Around the Plants.

The Akron China company, over whose shop Joseph Barker was foreman, and local union No. 30, of which he was a member, have decided to perpetuate his memory, and although he is buried in this city, there will soon be a substantial monument erected to his memory. A number of the potters in this city will assist in the work of raising funds to erect the monument.

The Peoria pottery has put out a new toilet and dinner set. The plant is also making jardinières.

The Evansville pottery will enlarge their clay bins and are now trying to buy a strip of land 25x100.

Hennel Wolf has moved from this city to Evansville.

David Lovett, of Kokomo, Ind., is a new employe in one of the local potteries.

William Neal, of East Palestine, is now employed in the mold shop at McNicol's, Wellsville.

William Benton, of East Palestine, will have charge of the new mold shop at the Cannonsburg pottery.

The Fallston pottery reports a very good run of business and the plant is running steadily.

The new jigger at the Fallston pottery has been started, and Charles McDonald, formerly of the Mayer Bros.' pottery, is in charge of it.

George Smart, of this city, is now employed in the sagger department at the Salem pottery.

The new kiln at the Salem pottery will be a 16 foot 6 inch kiln. The sagger makers are preparing saggars for the kiln, so that it can be utilized as soon as it can be finished.

The C. C. ware, produced at the Anchor pottery, Trenton, is said to be made so thin that it resembles French china.

William Early, late of East Palestine, has accepted a position with the Oliver China company, Sebring.

Born to Mr. and Mrs. Macauley, Sebring, a daughter. Mr. Macauley is the foreman of the Oliver china works.

The total railroad receipts at Sebring last week were \$391.51.

S. S. McCamon has resigned his position at the Salem pottery and is now employed at the Bradshaw pottery, Rogers.

Herford Moore and Harry Green, of Rogers, are now employes of the Oliver China company, Sebring.

J. F. Bradshaw has returned from a

trip through West Virginia in the interests of the Union pottery. He reports business good. He left today for an eastern trip in the interests of the same firm.

W. E. Tustin, Jr., representing the North Carolina Mining and Manufacturing company, of Sylva, Jackson county, North Carolina, is in the city today calling on the potteries for the purpose of selling china clay.

Richard Boulton, of the Dresden pottery, has resigned his position at that plant and has gone to the Murphy pottery. The printers at this pottery are very busy at present.

Carload shipments of ware have been very brisk this week. The Thompson pottery have sent several cars to western points.

COLD ROOMS.

It Is Claimed That School Children Are Sometimes Kept in Rooms That Are Cold.

Editor News Review: Permit me through your valuable columns to call attention to the fact that school children are often kept in rooms that are much too cold for their own health. During the cold weather in January the children were often kept in rooms that were much too cold for them, and even if they were permitted to keep on their wraps they were compelled to stay in their seats and thus have no chance to get warm. My own child came home one morning and told me that the thermometer in her room had registered not more than 55 all morning. I kept her home after that, believing that her health was a great deal more to her than her education. The rules for the government of the schools, say 65 to 70 degrees, shall be considered a good temperature, and the rule should be observed. The children should be dismissed whenever the temperature is not at the proper mark. I believe in education, but I don't believe in keeping children in cold rooms.

Progressive peanuts was the game played during the evening. The first prize was won by Miss Fowler and Thomas Fisher, while the second prize was won by Miss McConnell and Charles Pittinger. A luncheon was served at a late hour.

NEW HORSES.

The Local Express Office Has Received Two—Action of Council Had a Good Effect.

Clerk Hanley has notified the driver of the Adams Express company of the action taken by council at their last meeting in regard to the horses the company use. The agent of the company will also be notified, but the first notice seems to have had the desired effect. The local office received one new horse last Wednesday and another one this afternoon. The old horses will be sent away.

SUIT OVER A LAND DEAL

Anna Mary Oschmann Sues J. N. Taylor Upon a Contract.

DENIES SHE FULFILLED HER PART

In the Making of Payments and Declines to Allow Her to Carry Out the Purchase of Three Lots on Which She Has Paid Half and Asks to Pay the Balance.

Lisbon, March 17.—(Special.)—Anna Mary Oschman, of East Liverpool, has brought suit against John N. Taylor to enforce the specific performance of a contract for the sale of lots 709, 710 and 711. The plaintiff agreed to pay \$6,500 for the property, \$500 cash and the balance in deferred payments. She has paid altogether \$4,060, has erected a building on the premises worth \$1,500 and has tendered the defendant \$4,776.89, balance due, which he refuses to take, claiming that the plaintiff has not fulfilled all the conditions of the contract in making the payments.

THE WHAN CASE.

Squire Rose Will Hear His Claim for Salary for the Time He Was Suspended.

The case of John Whan against Mayor Bough and the city will come up Monday afternoon in the court of Justice Rose. There will be no jury this time, but two witnesses will be summoned and the Whan side of the case will be tried and the squire will render a decision. There will be no defense made, as Solicitor McGarry prefers to let the case be settled in common pleas court. Whan only asks for \$160.35.

Topic For the Week Beginning
March 18. "Ye Must Be Born
Again"—Text, John iii, 1, 15.

"Except a man be born of water and of the Spirit, he cannot enter into the kingdom of God."

This is the statement of a law as fundamental in the spiritual realm as gravitation is in the natural world. However men may ignore or deny it, the forces of the human spirit obey it and ever must do so as long as God remains God and man is man.

This is not the question of future existence, but of any existence of conscious soul life. It is not the doctrine of baptism or any ceremonial which is involved, but the fact of soul cleansing and quickening into personal activity.

There is no human life but by birth. That is the doorway to existence of bodily and physical powers. Birthdays are anniversaries of our coming into this world. In a similar way must we enter the spirit realm. Death is not the gateway. Birth is the door. Now is the proper time. The kingdom of God is here. We enter it when we come to know God as Father and feel His life moving in our souls and consciously choose the good and true from the evil. We emerge from the passive state into active, individual exercise of trust and love and helpfulness toward God and Jesus Christ.

We cannot too much emphasize the absolute need of this change from passive, unconscious reception of God's goodness and mercy into the willing and intelligent participation with Him in holiness and goodness. Nothing else can take its place or be a substitute. We are either alive unto God through Jesus Christ by the operation of the Spirit of Holiness or we are still unborn into His kingdom unless we have indeed died unto Him by quenching the Spirit.

More time has been spent on theological disputes regarding the new birth than has been profitable. The important consideration is to be assured that one has been born unto God and is now alive in the kingdom. Yet there is need of clear understanding of the nature of the change to be expected and the marks of the new life, the means for its proper nourishment and its relation to other experiences.

Some regard the new birth as identical in nature and time with regeneration. Baptismal regeneration on the one hand and adult faith as needful to salvation on the other have made much confusion until some, in despair, not to say disgust, at the prospect, have given over all attempts at explaining matters reasonably and let "doctrines" alone. Many ignore altogether the necessity for any special change in inner nature or outer life and claim that their actions are as worthy as those of people who make much greater professions of sanctity.

Still the words of Christ remain as truth; still there are multitudes who know they have passed from death unto life and are assured of pardon, peace and joy and present citizenship in God's kingdom of grace and live in expectation of His glory.

No clearer statement has been made of these matters outside the Bible than by John Fletcher, the friend of the Wesleys. It would be well for our Leaguers to read what he says on regeneration and the new birth. Many Methodist preachers should reread with care his "Checks to Antinomianism."

The Shame and Glory of It.

How can liberty and obedience be reconciled? When we first awake to consciousness of our own powers of thought and feeling and know in ourselves the ability to choose our own course, we experience an exaltation in our liberty. We are masters, we know. Others may think and feel as they please, we will not be governed by them. We glory in our strength and count it weakness and unworthiness to yield to them.

New thought comes to us with all the charm of novelty and originality. The glow and zest of life will never dim if only we can go on discerning new truth. Others are dull of sight and feeling. We cannot follow them. Independence befits us. It is the new that charms us in speech and sermon. Unless one can bring forth the startling we will not listen. We delight in our own powers. The truth does not hold us because of its relation to all things, but because we are flattered that we have found it. We do not care so much for our ideas as for ourselves. Eventually this must fail to satisfy.

Whoever finds truth in this way will sooner or later lose his power of discovery. It will hold him off, for truth does not belong to such a mind. We have craved distinction and not real knowledge. The intellectual life fades and dies down.

When we come to grasp ideas as God's thought and as all united in His oneness and given to us by Him to make us companions in His wisdom and feeling and coworkers with Him in eternal plans of beneficence, then they get hold of us. We become devoted to them. Obedience to them is our highest liberty and glory. We compel all our faculties to unite in their fulfillment. We lose ourselves in them. They become all in all and possess us. Then we have power, because God works through us. We are lost, yet never so truly found as then. Truth has found us and exalted us.

Men wonder where we learned, how we came by our ideas. No eye can discover the secret. Absolute, unquestioning obedience to the highest and best, not for the pleasure of the search, but for the sake of Him who is the Truth, this alone is the way of glory and success.

Has the revival reached you and your League? Does it make you more truthful and tender, more honest and hopeful? It should.

Boutelle and Blaine.

They used to tell a good story about Boutelle in connection with the campaign of 1884. He idolized Blaine, and for years there was bad blood between him and Reed, because Reed acted as though he thought himself as great as, or greater than, the plumed knight.

The story is that Boutelle accompanied Blaine on his western tour in 1884. When the special pulled out of New York, Boutelle rushed over to Blaine's seat, his face white with anger and his voice vibrant with passion. Holding in his trembling hands a copy of the New York Tribune, he pointed to an article and exclaimed, "Was there ever such fatuous blundering as that?"

For half an hour he commented on the article to the half score persons who had gathered round. The Tribune was Blaine's chief organ, as every one knew, but the fiery Yankee of French extraction continued to pour hot shot into it. Finally Blaine said, "Charley, do you know who wrote that and procured its insertion in The Tribune?"

"No," was the answer, "but I take it that it was Whitelaw Reid or some other infernal fool."

"You are wrong, Charley," replied Blaine. "I wrote it and had The Tribune print it."—Washington Cor. Louisville Courier-Journal.

A Hard Rain.

"It rains a great deal in the Puget sound country," says a man from that part of the Union, "and I heard a funny incident not long ago about it. Some chap had come from the Mississippi valley to take up his residence at Whatcom, on Bellingham bay, where there are very high tides. When the boat landed him at the end of the long pier extending over the tide flats, the water was low, and the new man did not notice anything but a wide stretch of sand between the boat and the town."

"It was in the evening, about dark, and was raining, and he went to the hotel on the front street and staid there, going to bed without having gone out for a walk. The next morning when he got up he looked out, and the tide was in, the water coming up close to the hotel. He gazed at the wide-spread waters for an instant, and, throwing up his hands in astonishment, he exclaimed, 'Gee whiz, but it must have rained hard last night!'"

"Then he hurried down stairs to the office to find out if there was any danger from the flood, and the clerk smiled four or five times and gave him some much needed information."—Washington Star.

Concise and Explicit.

Many stories, mostly fabrications, have been told about long, diffuse telegraphic messages sent by women, as if the feminine mind were incapable of expressing itself concisely.

How false and slanderous such an impression is is well shown by an incident reported by a contemporary. A gentleman went to Paris on business. As he went away he said something to his wife about buying her a new dress. Just before starting homeward he telegraphed to his wife, "Which shall I bring you, a diamond ring or a silk dress?"

The reply was concise and explicit—one word, "Both."

COLD DEMOCRATS SCHEMING

Stone Believes They Are After Control of Party and Want Johnson For Chairman.

St. Louis, March 17.—Ex-Governor William J. Stone, Democratic national committeeman from Missouri, said he believed there was some truth in the statement that there is a movement among eastern Democrats to elect Tom L. Johnson, of Ohio, chairman of the national committee and eliminate Silver from the platform.

Governor Stone further said:

Some sort of a scheme is on foot, although I am not able yet to say exactly what it is. From information that came to me at Washington and since, I gather that the end which the Palmer and Buckner Democrats are trying to attain is the capture of the organization of the party. Their scheme seems to be to get into the convention as delegates and with as little noise as possible, but by means of adroit manipulation, control as many delegations as possible, with the ultimate object of controlling the convention and capturing the national committee. They will be for Bryan, but they want the organization.

Speaking for myself, while I am very glad to see the Palmer and Buckner Democrats who deserted the party in 1886 come back to it, I do not believe in offering a premium for their return. If they come back, they should come with no hope of reward, but as plain Democrats. They deserted the party in 1886 and fought it as hard as they could and they should expect no reward for seeing the error of their ways and repenting. I do not believe in giving them the management of the national campaign.

That there is some scheme, such as is alleged, on foot, I have no doubt. It is shown by many bits of evidence that have cropped out recently.

Trial of James B. Kellogg.

NEW YORK, March 17.—The trial of James B. Kellogg, of the E. S. Dean company, was resumed before Recorder Goff, in the court of general sessions. Elisha C. Hubbard was examined with reference to the so-called "wash transactions" of the Dean company. The object of his testimony was to corroborate Kellogg's evidence that these "wash transactions" were made for the purpose of leading the Dean company's customers to believe that the company was actually investing the money sent it.

Archbishop Keane Has Refusal.

DUBUQUE, Ia., March 17.—It developed that Archbishop Keane, of Washington; Bishop Cosgrove, of Davenport, and Bishop Lineham, of Cheyenne, were mentioned at the conference as candidates for the archbishopric of Dubuque. Also Archbishop Keane was given the refusal. Should he decline, Bishop Cosgrove will be selected. Keane, it is said, may decline because of the practical certainty of his being made coadjutor at Chicago.

Restaurant Thieves.

"Why don't you use after dinner coffee spoons?" asked a woman at a first class up town restaurant of the proprietor the other evening, finding it somewhat inconvenient to use a large spoon with her small cup. "We did have them when we first opened," answered the proprietor. "We had six dozen, but they gradually disappeared until now only three are left, and we consider it more economical to use the larger spoons, for which people do not seem to have such a fancy."

At many restaurants when a glass of claret or sherry is called for it is served in a tiny decanter. These miniature bottles are very attractive. They seem to appeal, as many small things do, to the taste of many people. One man who visits now and again many different restaurants boasts that he has over two dozen of these pretty little decanters. He doesn't say how he came by them, but he didn't purchase them.—New York Times.

A British Army Corps.

The British army corps as nominally constituted numbers 36,259 officers and men. A large number of these are "technical" troops, in charge of the pontoons, field telegraph, railway appliances, balloons, field batteries and field hospitals. Eliminating all of these technical troops, the strength of a division in infantry, cavalry and artillery is 9,449 men, with 18 guns; of an army corps, 30,799 men, with 102 guns.

Idaho Strike Investigation.

WASHINGTON, March 17.—The cross-examination of Special Prosecutor Foreney occurred at the session of the Idaho strike investigation committee. He said that no doubt some of the imprisoned men were innocent, and they were released as soon as the facts could be learned, but the testimony was voluminous and action was necessarily slow. He believed there was a prima facie case against all those held.

Sullivan Got Decision Over Broad.

NEW YORK, March 17.—Dave Sullivan got the decision over "Kid" Broad at the end of the twenty-fifth round.

Miss Anna Settle returned to her home in Fairview last Sunday from East Liverpool, where she has been spending the past winter.—Cumberland Independent.

Conductor Frank Connell, who has been running on passenger trains Nos. 337 and 338, has been transferred to trains 341 and 342. He is one of the most popular conductors on the road.

E. W. and S. K. Finnicum, of Seno, O., who have been spending several days in the city visiting their cousin, Mrs. F. F. Anderson, of Third street, returned to their home this morning.

Miss Williams, a teacher in room 11 at the Central building, is confined to her room on account of illness. Miss Dunlap will have charge of the room until Miss Williams returns.

Superintendent R. E. Rayman stated this morning that the scholars in the higher grades at the Central school were taking quite an interest in the reading of current news in connection with their other school studies. Mr. Rayman said that by paying attention to the news of the world the scholars were assisted in their school work.

It is expected that within the next few weeks there will be a number of people leave the city for California and other western points. Quite a number of passenger representatives of the western roads have been in the city during the week, and the rule has been that when these men come around some people always leave for the west.

TRADE NOT AFFECTED.

Influence of Monetary Act on Business Not Yet Noticeable, Said Dun's Review.

NEW YORK, March 17.—R. G. Dun & Co.'s weekly review of trade issued today, said in part:

The new monetary act which was signed and took effect on Wednesday has not effected business perceptibly as yet. Designed as a barrier against future harm, it was by some expected to have immediate influence through provisions regarding banking circulation. While \$2,100,000 will be added to New York circulation, the increase thus far indicated will be mainly interior affecting the chief monetary centers only by reliance upon them when more currency is wanted.

While government estimates of wheat in farmers' hands showed a sufficient quantity with visible supply to meet, besides all home requirements, as large foreign demand as those of last year, and yet leave a large surplus, there is no reason to expect that last year's foreign demand will be equalled. The price advanced 1½ cents for the week, and corn advanced ½ cent. Zealous efforts to excite new confidence in higher prices for iron have not had the desired effect.

While various markets are called stronger, not a quotation has advanced, but tank plates at Pittsburgh are a shade lower at 2 cents. Eastern grey forge has sold there in considerable quantity at \$20.50, against \$21.00 for local forge, and southern No. 1 foundry is selling here at \$22.75, against \$23.50 for northern No. 1. Bessemer pig is still held at \$24.00 at Valley mills, though small lots are obtainable at Pittsburgh at \$24.50. Many large contracts are mentioned as in prospect, but not one as closed, except a structural contract for the government printing office. Much work is deferred because of the builders' and machinists' strike at Chicago, and because of doubt whether prices can be held with the output exceeding consumption over 1,000 tons per day.

Sales of wool have been only 7,323,500 pounds in two weeks, manufacturers have such supplies that they buy only to piece out for special wants, and the best dealers report that a yielding of one cent would be required in order to effect sales. Quotations are really nominal for lack of transactions. The mills are still producing great quantities of goods without buying wool. Prices of leading goods have not declined, but others, both plain and fancy, are somewhat weaker.

Failures for the week were 198 in the United States, against 189 last year, and 23 in Canada, against 30 last year.

A DAY IN WALL STREET.

Third Avenue Continued to Absorb Large Attention—Situation in the Money Market.

NEW YORK, March 17.—Third Avenue continued to absorb a large share of attention in the stock market Friday, and was the only stock on the list with any considerable range in the price fluctuation. After an early decline, this stock moved upward over 5 points and closed with a net gain of 2½. Sugar was active, but showed a comparatively narrow range, and ended the day with a small net gain. People's Gas more than retrieved an early decline and Pacific Mail was notably weak.

The New York sub-treasury made a small contribution Friday to the cash resources of the banks on the routine transactions between them. This is the first time this has happened in over three weeks and brings down the losses by the banks for the week on sub-treasury operations to \$4,307,000, compared with \$6,860,000 last week. The gain by the banks is due to the disbursement of pensions. On the currency movement by express to the interior a net loss by the banks is indicated of only about \$750,000, compared with \$2,500,000. Without allowing for the movement by registered mail, the loss of the banks on all accounts is therefore only a little over \$5,000,000, compared with nearly \$10,000,000 last week.

Money on call was in good supply for most of Friday at from 4 to 4½ per cent and the late flurry was accompanied by rather palpable manipulations, the rate quickly yielding under the offerings brought out. But, whatever remain of the surplus, it is certain to be small. The impression is general, however, that today's statement will show the low water mark for reserves, and that the factors of replenishment will begin to show effect next week.

Bonds were relatively more active than stocks, some of the dormant high grade issues being dealt in at advancing prices. At other points prices yielded. Total sales, par value, \$2,075,000. United States old 4s declined ¾, and the 3s and 5s ½ per cent in the bid price.

Chicago Grain Market.

CHICAGO, March 17.—The cold wave sent wheat prices up Friday almost as

"To-morrow, and to-morrow, and to-morrow, Creep on in petty space from day to day And all our yesterdays have lighted fools The way of dusky death."

Procrastination is the thief of health as well as the thief of time. There are few things in which procrastination is so much indulged as in letter writing. We mean to write, but "to-morrow and to-morrow creep on" and we neglect it. This is bad enough when the correspondence is social or business in its character, but when it concerns the vital issue of health it is infinitely worse.

This touches you, if you are one of the women who have felt inclined to take advantage of Dr. Pierce's offer of a consultation by letter, free. You have studied the evidence which shows how other women have been cured. You cannot doubt but that Dr. Pierce's Favorite Prescription does cure diseases peculiar to women; irregularity, ulcerations, inflammations, bearing-down pains. You cannot doubt it, because of the force of the testimony of hundreds of thousands of weak women made strong, and sick women made well, and you mean to write—to-morrow.

Write to-day. Your letter will be read in private, its contents guarded as a sacred confidence, and an answer promptly mailed you in a plain envelope without any printing upon it. Address Dr. R. V. Pierce, Buffalo, N. Y.

"When I wrote you about my ailments I was living in Richland, Iowa," writes Mrs. M. Vastine, of 647 South Liberty Street, Galesburg, Ill. "I took six bottles of Dr. Pierce's Favorite Prescription, four of the 'Golden Medical Discovery' and four vials of Dr. Pierce's Pleasant Pellets. Before I had taken four bottles of the 'Favorite Prescription' I was a new woman. I cannot make pen describe my heartfelt gratitude, but will confirm the truth of all I say if those who write inclose stamped envelope for reply."

Dr. Pierce's Pellets are a natural aid to beauty. They clear the complexion.

fast as the mercury went down, may closing at an advance of ¼ cent. Reported damage to the unprotected wheat were the main factor in a general covering movement. Corn was weak at times, but closed at a shade advance. Oats also closed a shade higher. Provisions were strong all day, closing from 5 cents to 17½ cents higher.

TO PROTECT U. S. MISSIONARIES.

Secretary Long Ordered Warship Sent to Chinese Coast.

WASHINGTON, March 17.—Secretary Long cabled instructions to Admiral Watson, at Cavite, to send a warship to Taku, China, at the mouth of the Tienho river, to look after American missionary interests that are threatened. He has left the selection of the ship to Admiral Watson.

Warship Didn't Chase German Vessel.

LONDON, March 17.—The report published in the United States that the British warship 'Ithetis' was chasing the German steamer Kaiser, off Delagoa bay, the Kaiser having the Boer commissioners on board, was denied by the officials of the foreign office, who said the idea of the officers of a British warship attempting to remove foreigners from a German vessel is "utterly impossible and absurd."

A Lake Vessel Ice-Bound.

St. JOSEPH, Mich., March 17.—The steamer Louisville, of the Graham and Norton line, has icebound five miles out in Lake Michigan, on the Chicago course. A harbor tug went out. After three hours' battling with the ice, the vessel was abandoned for the night for the want of coal. Another attempt will be made with a new supply of coal to bring in the steamer. Provisions for the 20 passengers on board will also be taken out.

Invasion of Costa Rica Feared.

NEW ORLEANS, March 17.—The steamer Anselm brought passengers from Port Limon and Greytown, who reported that President Iglesias, of Costa Rica, had issued a proclamation suspending the constitution of the republic, and declaring himself dictator until after the threatened invasion on the part of, Mora occurs or has been abandoned.

Confessed to Large Shortage.

ELMIRA, N. Y., March 17.—Frank E. Bundy, chamberlain of this city, and for three years previously clerk in the chamberlain's office, voluntarily confessed a shortage of over \$30,000 in his accounts.

Machinists May Strike in Cleveland.

CLEVELAND, March 17.—It now seems probable that a strike of the union machinists will shortly be declared in this city.

Mrs. Arnold Dead.

LONDON, March 17.—Mrs. Arnold, widow of Dr. Thomas Arnold, the famous head master of Rugby, is dead.

NOTICE.

To the Republican Electors of Columbiana County, Ohio:

Notice is hereby given that a primary election will be held in the various precincts of Columbiana county,

SATURDAY, MARCH 24th, 1900,

between the hours of one (1:00) and six (6:00) o'clock p. m., central standard time, the said election will be held in accordance with the rules adopted by the 16th publican (Central) Council, February 9th, 1899, and it is held for the purpose of voting for candidates for Congress, Circuit Judge, and Common Pleas Judge; the nomination of one Prosecuting Attorney, one County Commissioner and one Infirmary Director.

No person who shall not be a legal resident of the township or precinct, and who is not at present and hitherto identified with the Republican party, shall be held to be a qualified elector.

The time for the entry of the names of candidates as provided by the rules of the committee having expired at noon March 3d, the lists are now closed, and the following is the official list of the names of the candidates for the respective offices, who have complied with the said rules:

For Congress

ROBERT W. TAYLER,

CHARLES C. BAKER.

For Circuit Judge

JOHN M. COOK

TWO CENTS

QUARRELED OVER A QUART OF WHISKY.

A Murderous Attack Upon John Cummings on South Side Yesterday by Jno. Purvis and Joe Willis, Teamsters.

PARALYZED AND HEAD MASHED TO A PULP.

All Three Are Employed by Contractor McLaughlin on South Side Land Company's Addition. Purvis Arrested, Willis Escapes—Happened Sunday Morning.

South Side has another murder case.

A quarrel over a quart of whisky led to a savage attack by two fellow workmen upon John Cummings near Rock Spring park yesterday morning, and Cummings' death is hourly expected.

All the men are employed by Contractor John McLaughlin in grading the streets on the South Side Land company's addition. Cummings was cook for the gang. His assailants, John Purvis and Joe Willis, known as "Joe, the mule driver," were employed as teamsters.

About 10 o'clock yesterday morning Cummings and Purvis were standing in the big stable about 50 feet from the shanty where the men live, across the run opposite Rock Spring park. Joe the mule driver was also in the building. All three had been drinking whisky and the quarrel arose over their respective shares. Without warning Purvis lifted a singletree and struck Cummings over the head with it. Willis came forward, and, seizing the neck yoke, hammered Purvis over the head with it five or six times, knocking him down, unconscious and covered with blood.

About 10:20 Grant Mercer, G. A. Arner and R. G. Mercer, well known residents of Chester, were walking in the neighborhood and noticed Cummings lying outside the stable door. The door and walls were blood spattered and Cummings was lying in a pool of blood, his head a mass of cuts and bruises. They picked him up and carried him into the shanty, where they laid him in his bunk in the sleeping room. Arner said: "This man's going to die." Purvis, who was present, said: "Rub him with whisky." "No, we'll send for a doctor," said Arner.

MASHED TO A PULP.

Dr. F. M. Laughlin's Superficial Examination Reveals Terrible Injuries.

Dr. F. M. Laughlin, of this city, was sent for and went over in the afternoon. He made a superficial examination and found Cummings' skull was fractured and the back part of his head mashed to a pulp. His head is fearfully contused and the shock of the blows had paralyzed the man's whole body. He has been lying in a comatose condition ever since, and the doctor says he cannot possibly recover.

The only eyewitness of the crime was Harry Saunders, 17 years old, a driver employed by McLaughlin, whose home is in Beaver Falls. He was sitting in the sleeping room of the shanty reading a novel when he heard the row. Looking out through a hole towards the stable he saw Willis strike Cummings over the head

with the neck yoke. He did not see Purvis strike Cummings, that having happened before his attention was attracted.

Cummings came here from Pittsburgh two weeks ago. His home is at 4 Boston street, South Boston, Mass. He is about 35 years of age. Purvis is well known in this city. He is a man of about 50, wearing long whiskers and formerly acted as teamster for people in this city. He has been around this section for several years. Willis, whose home is near Rochester, Beaver county, Pa., came here last Thursday and was put to work hauling sand by McLaughlin. Willis had some money when he came.

ARREST OF PURVIS.

Walked Out When Officers Came, But Was Followed and Arrested.

The shanty where the men live is divided into two compartments, one eating and one sleeping. In the sleeping room the bunks are ranged in tiers around the room. When a News Review reporter went to the place at 5 o'clock yesterday afternoon the men were at supper. Inquiring for some details about the affair he was told that Purvis, who sat at the head of the table, could tell him. Purvis replied that he knew nothing about it. At this point Deputy Sheriff Gill came and was followed by Officer Jack McDonald. Purvis, who had not known Gill, recognized McDonald as an East Liverpool officer and arose from the table, walked over to the stove, took his hat from the wall and walked out. With his departure the others talked more freely and it was not long until Gill and McDonald learned that the man they wanted was the man who had gone. Hastening after him they first searched the big stable and then the smaller one, but without finding him. McDonald started towards the hill and when he reached the Hookstown road saw Purvis hiding behind a tree. He called to Purvis to come down, that he wanted him. Purvis walked to the edge of the hill above the road and shouted: "What do you want with me?" McDonald told him to come down and they would tell him. Purvis replied: "You are a Liverpool officer and haven't any business with me."

McDonald by this time had come close enough to grab Purvis and dragged him down to the road, where he and Gill took him in care. A little further on they met Constable R. E. Allison, of Hancock county, who placed Purvis formally under arrest. Purvis was taken first to the shanty, where he packed his grip and then to the home of Archie SeEVERS, where he changed his clothes and later in

the evening he was taken to New Cumberland jail by Constable Allison and Stephen SeEVERS in a buggy.

JOE, THE MULE DRIVER.

Takes Three Street Car Rides and Then Makes His Escape From Town.

Meanwhile Joe, the mule driver, had made two round trips to Liverpool on the street car, once in the morning and once in the afternoon. He crossed again and was last seen going down Broadway by Motorman McKinnon. The city officers had been notified during the afternoon and Davidson and Grim watched the afternoon train and when the packet Kanawha, which left at 4:30 for up river points. Nothing was seen of Willis at either. In the evening Harry Saunders and Neal Steele, colored, two of McLaughlin's men who knew Willis, were brought to the city to assist the officers in looking for him.

Purvis is a dark complexioned man, or about middle age, weighing 180 pounds, and has a scar over his right eye. He is about 5 feet 7 inches in height. He wore a corduroy cap when last seen.

he visited the stable and found two empty quart whisky bottles, evidently the cause of the trouble, which he threw into Mark's run.

Purvis admitted to the men in the Shanty that he struck Cummings. Later when he found Willis had escaped he said Willis had struck him.

Cummings, beyond the groan uttered when felled by Willis, has not given the slightest sign of animation.

Last evening at city hall when the arrests from the raid were being brought there Officer Bryan noticed a man standing on the corner of Third with a scar on his left cheek. Officer McDonald went over and asked the man to come to city hall, which he did. After a brief inquiry it was found that he was not Willis, whose scar is over the right eye. The other man works as a bricklayer in town.

This is the second murder case in South Side within four months. Thanksgiving Albert Johnson, colored, killed Mrs. Mary Kinders, wife of a boarding house keeper employed by the men working upon Contractor McNally's railroad construction gang. Johnson is now in New Cumberland jail and will have his trial in a month. It is likely Purvis will be tried at the same term of court.

LAZARUS HAD HIM.

Beaver County Detective Arrested a Man Like Willis Last Evening.

It was reported this forenoon that Willis had been arrested at his home in Rochester. The News Review telephoned to County Detective Lazarus, who had not heard of the crime. When he was given Willis' description, he said: "Oh, my. Why we had a fellow answering that description last night arrested on a petty charge, but we didn't know of the Chester case. I'm going right out to rearrest him."

Prosecutor A. J. McKenzie, of Hancock, arrived here at noon and went direct to Chester, where he is now investigating the affair.

Dr. Laughlin dressed Cummings' wounds today. The injured man is still paralyzed and unconscious, but is sinking rapidly. About 2:30 he was able to swallow some nourishment.

GAS IGNITED.

John Orr Thought the Match Had Gone Out, But It Hadn't, and He Was Burned.

John Orr, the janitor at the Grant street school house, had a narrow escape yesterday afternoon. He went to the building for the purpose of lighting the gas in the heater. He threw a match in and turned the gas in, but it didn't light. Thinking the match had gone out he opened the door of the heater and looked in just as the gas ignited. He was severely burned about the face and hands, but is still able to attend to his duties as janitor.

ASSAULT AND BATTERY.

Martha J. Smith Claims Her Son-in-Law, Ed. R. Frederick, Misused Her.

Martha J. Smith, who lives on Second street over the blacksmith shop of M. Brozka, called on the mayor this morning and filed a charge of assault and battery against her son-in-law, Ed. R. Frederick. She claims that Frederick assaulted her, knocked her down and choked her. He was arrested by Officer Wood and will get a hearing tonight at 8 o'clock.

A large number of meetings will be held this week. The board of education meets tonight, trades council meets Wednesday evening, the Republican central committee meets Wednesday evening, the library directors meet Friday night and the water works trustees hold their annual meeting Friday night.

FUMIGATED THE HOUSE.

There Is Now Not One Case of Diphtheria or Scarlet Fever in the City.

Sanitary Officer Burgess Saturday afternoon fumigated the home of George Beggs, Nottingham street, the diphtheria patient having entirely recovered. There is now not a case of diphtheria or scarlet fever in the city, and it has been several days since a case of typhoid fever has been reported.

MACRUM'S CASE.

WHEELER WANTS THE MATTER INVESTIGATED.

He Proposes to Introduce a Resolution in the House of Representatives.

Washington, March 18.—(Special.)—The Macrum matter is not to be permitted to rest in the official pigeon holes if Representative Wheeler, of Kentucky, can prevent such a disposition of the matter. He proposes to put new life into the subject by offering a resolution directing the house committee on foreign affairs to investigate—first whether there is any truth in the statements made by the former consul and printed in the newspapers, and for that purpose to send for persons and papers necessary to discover the facts; second, if any substantial grounds is found for the assertion that official mail has been opened to inquire what action, if any, this government has taken, and if none has been taken, why not.

Mr. Wheeler is of the opinion that the answer made by the state department is no answer at all, hence his effort to get the house committee to dig into the case and have an official record made of Macrum's complaint. He disclaims any idea of making political capital, but is very doubtful if he will be able to convince the leaders of the house that he is actuated by anything higher than patriotic motives. For that reason the resolution is likely to take its natural course, which is to sleep peacefully in the files with thousands of other bills and resolutions which have never been acted upon.

ANNUAL CLEANING.

Has Been Delayed This Year on Account of the Exceedingly Bad Weather.

The annual spring cleaning in the city usually takes place about March 15, when the health officer and street commissioner serve notices on the residents to clean up their properties. The cleaning this year has been delayed on account of the bad weather, and the notices will not be served until the bad weather is over. It would be impossible at the present time to clean the lots and alleys and put them in good condition. As soon as the ground dries the notices will be served and the city given a thorough cleaning.

Seriously Ill.

The many friends of Miss Jennie Lindsay, of Hoboken, Pa., will be pained to learn that she is seriously ill at her home in that city. Miss Lindsay is well known here and has a host of friends. She was here last summer, and while here was the guest of Mrs. F. A. Sebring.

Went Home.

A. G. Minehart returned Saturday afternoon to his home in Youngstown after spending a few days in the city the guest of friends. He is contemplating moving to the city.

This Week.

The water works department will finish putting in the main to the lands of the Riverview company this week. They will then start work on the East End line.

Cleaning Crossings.

The street force is busy today cleaning crossings. If the present wet weather continues for a few days the streets will get another washing.

FIRST U. P. CHURCH FIRE

A Small Blaze Occurred Yesterday Morning.

STARTED FROM THE HEATER

The Department Was Called and It Is Due to Their Good Work That the Church Is Not a Total Wreck--The Fire Was in the Basement and Was Very Hard to Fight

The good work of the East Liverpool fire department yesterday morning prevented a disastrous fire at the First U. P. church, and it is entirely due to their efforts that the church is not a total wreck today.

Yesterday morning the janitor, R. D. Vanfossan, went to the church at 5 o'clock for the purpose of firing up. He built a good fire in both heaters and then went upstairs to one of the class rooms, where he remained until 6:15. He decided to throw some more coal on before he went home. When he opened the door leading to the basement a flood of smoke greeted him, and it took him but a moment to ascertain that the basement was in flames. He ran to the fire department and they made splendid time to the fire. The basement was so full of smoke that the department could not reach the fire through the door and they went to the north side of the building and ran a line of hose through the ventilator. Another line was taken through the lecture room and a hole cut through the floor in the class room, and they worked down on the fire. The fire in the meantime had run up the partition to the auditorium, but the department was equal to the occasion and extinguished the flames upstairs with the Babcocks. The fire was extinguished in a short time, but the department remained at the scene until 8 o'clock.

The fire originated from the new heater, which was put in the church last fall and which is located in the rear of the church. The fire started from the pipes which run under the floor in the class rooms, and here the most damage was done. The joists under the floor are badly burned and it will need a new floor. The partition is also burned, and there are two holes in the floor in the auditorium and the paper is smoked. The loss is fully covered by insurance.

KILNHANDS.

Are Still Short and the Potteries Are Greatly in Need of More Men in This Department.

There is still a scarcity of kiln hands among the local potteries, and some of the plants cannot get enough men to keep the factories going in the proper manner. A manufacturer in speaking of the matter says that they expect relief from the Brotherhood soon, as they positively must have it. He thinks it would be a good idea to take some of the kiln drawers and put them on and let apprentices take the places of the kiln drawers. He says the kiln drawers thus removed could be paid \$1.75 per day for the first year and it would mean an increase of 25 cents per day to him. The manufacturer is of the opinion that the kiln hands would not object to the plan.

MAILED THE BONDS.

The City Will Have Plenty of Cash as Soon as the Bond Buyers Pay Up.

Saturday afternoon City Treasurer Herbert sent to Feder, Holzman & Co., Cincinnati, the street bonds which were sold to them during February. The total amount of the bonds sold at that time was \$29,329, but since then the amount has been cut down \$2,200, leaving the amount of bonds to be sent to the company \$27,129, and the premium was cut down to \$1,806.78. When the funds for the bonds arrive and are placed in the treasury of the city all leaks will be stopped and we will once more have money, and some of the overdrawn funds will be replenished.

All But Two of the Master Plumbers Have Signed the Plumbers' New Scale.

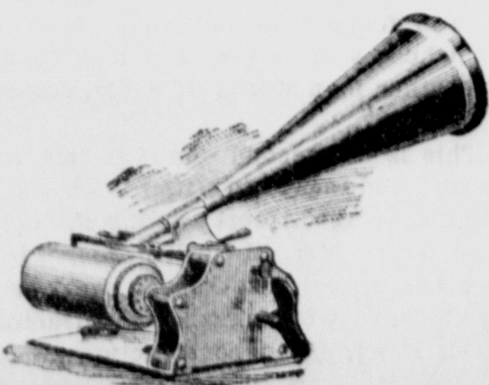

The plumbers have presented their new scale to all the master plumbers in the city, and it has been signed by all but two. One of the parties say they will sign the scale before the time arrives for it to go into effect, but the other says they will not sign it, but will live up to the terms asked by the journeymen plumbers. The scale goes into effect April 1. The plumbers will meet to-night and take some action in regard to the matter.

FIRST U. P. CHURCH FIRE

A Small Blaze Occurred Yesterday Morning.

STARTED FROM THE HEATER

The Department Was Called and It Is Due to Their Good Work That the Church Is Not a Total Wreck--The Fire Was in the Basement and Was Very Hard to Fight

The good work of the East Liverpool fire department yesterday morning prevented a disastrous fire at the First U. P. church, and it is entirely due to their efforts that the church is not a total wreck today.

Yesterday morning the janitor, R. D. Vanfossan, went to the church at 5 o'clock for the purpose of firing up. He built a good fire in both heaters and then went upstairs to one of the class rooms, where he remained until 6:15. He decided to throw some more coal on before he went home. When he opened the door leading to the basement a flood of smoke greeted him, and it took him but a moment to ascertain that the basement was in flames. He ran to the fire department and they made splendid time to the fire. The basement was so full of smoke that the department could not reach the fire through the door and they went to the north side of the building and ran a line of hose through the ventilator. Another line was taken through the lecture room and a hole cut through the floor in the class room, and they worked down on the fire. The fire in the meantime had run up the partition to the time had run up he partition to the auditorium, but the department was equal to the occasion and extinguished the flames upstairs with the Babcocks. The fire was extinguished in a short time, but the department remained at the scene until 8 o'clock.

The fire originated from the new heater, which was put in the church last fall and which is located in the rear of the church. The fire started from the pipes which run under the floor in the class rooms, and here the most damage was done. The joists under the floor are badly burned and it will need a new floor. The partition is also burned, and there are two holes in the floor in the auditorium and the paper is smoked. The loss is fully covered by insurance.

KILNHANDS.

Are Still Short and the Potteries Are Greatly in Need of More Men in This Department.

There is still a scarcity of kiln hands among the local potteries, and some of the plants cannot get enough men to keep the factories going in the proper manner. A manufacturer in speaking of the matter says that they expect relief from the Brotherhood soon, as they positively must have it. He thinks it would be a good idea to take some of the kiln drawers and put them on and let apprentices take the places of the kiln drawers. He says the kiln drawers thus removed could be paid \$1.75 per day for the first year and it would mean an increase of 25 cents per day to him. The manufacturer is of the opinion that the kiln hands would not object to the plan.

MAILED THE BONDS.

The City Will Have Plenty of Cash as Soon as the Bond Buyers Pay Up.

Saturday afternoon City Treasurer Herbert sent to Feder, Holzman & Co., Cincinnati, the street bonds which were sold to them during February. The total amount of the bonds sold at that time was \$29,329, but since then the amount has been cut down \$2,200, leaving the amount of bonds to be sent to the company \$27,129, and the premium was cut down to \$1,806.78. When the funds for the bonds arrive and are placed in the treasury of the city all leaks will be stopped and we will once more have money, and some of the overdrawn funds will be replenished.

SOUTH SIDE.

The East Liverpool Street Railway company have placed large orders for oak ties with farmers residing back in Hancock county and the order is now being filled. Last Friday the first of these ties were delivered, having been brought to the end of the Chester street car line, where they are being piled ready to be brought to Liverpool by the work cars. The ties are very heavy and those who claim to know something about ties say they are the finest seen in this part of the state.

Oscar Allison, who has been under the care of a physician for several weeks, is recovering rapidly.

The Chester Mechanics will meet in their hall over the postoffice this evening and take action on several new candidates.

It is said the school directors of the Grant district schools will hold a meeting after the close of the Chester school to consider the plan of enlarging the school for the next term.

The Chester Street Railway company did an excellent business yesterday afternoon. Many took advantage of the weather and went over to the South Side. Of course the mill proved to be the main attraction, and during the afternoon several hundred persons inspected the new plant.

This morning the mill company commenced to unload the machinery from the seven cars that were brought up from Cumberland junction last Thursday. It is very heavy and the workmen will be glad when it is all in position.

Mrs. Elwood Babb, who has been very ill during the past week, is able to be out.

Carpenters have again commenced to make frames for the new pottery.

William Tindle, of the mill company, spent Sunday in Pittsburgh visiting friends.

The list of candidates for the office of sheriff of Hancock county is growing, and Saturday three more men officially made the announcement that they would run. There are now five in the field.

Several families from out of town are expected to move to Chester during the week.

At present there are in the neighborhood of 50 workmen employed at the Chester rolling mill. Very few of them are working for the mill company, but for the firms that have the contract for erecting the machinery.

So far the only person to come out for the office of prosecutor is A. J. McKenzie. He is at present filling that position and is after the second term.

A number of Chester people expect to be called before the grand jury which meets at New Cumberland next Monday. Of course some will be summoned to testify to facts relating to the Johnson murder case, but there are some it is said who will be asked to testify to other things that have taken place in the district since the last sitting of the jury. Sheriff Wilkins will probably be up from Cumberland this week and serve summons.

LISBON, March 19.—[Special]—Mary Eaton is appointed guardian for William Francis Eaton, a minor of Unity township, 16 years old; bond \$1,480.

EAST END.

There is a small foot bridge over the run on Virginia avenue that should be looked after by the council. The bridge is a very frail affair and if allowed to remain in its present condition very long someone may fall from it while crossing over, and then the city will no doubt have another damage suit on its hands. There is a guard on the north side of the bridge, but there is no protection on the south side.

Miss Frierberger, who has been a guest at the home of Mr. and Mrs. J. R. Warner on Pennsylvania avenue for the past week, returned to her home at Canton today.

So far no word has been received in the East End as to the whereabouts of the Penny family, who left their home near Dry Run recently. Mr. Hays, who owns the house the family lived in, is anxious to learn about them, as he does not want to keep the furniture he took from the house and placed in his stable.

The small child of the Conners family, residing on First avenue, who has been under the care of a physician for several days, is recovering rapidly.

Stephen Miller, of Helana, is under the care of a physician.

Frank Powell, of Smith's Ferry, is seriously ill. During the past few days he has had convulsions.

A small child of Ebenezer Miller, of Pennsylvania avenue, is ill with typhoid fever.

Linemen for the new telephone company were working in the East End last Saturday placing cross bars on the new poles. During the week the men will commence to string the wires.

Darwood, the small son of Mr. and Mrs. William Heckathorne, of Pennsylvania avenue, is very ill threatened with the fever.

People who live east of Dry Run, and who have occasion to come to the East End, are wondering when the new bridge will be built over the run. During this kind of weather the bridge is needed more than during the summer weather.

The many friends of Mr. and Mrs. Jacob Schroder will be pleased to learn that a little son came to their home on Pennsylvania avenue Saturday morning.

The small child of Mr. and Mrs. James Miles, who has been ill for the past week, is recovering and will be able to be about within a few days.

During all of Saturday there was a shortage of gas in the East End. The shortage came about noon, just as the housewives were preparing dinner, and they were caused no small amount of inconvenience. The coal supply is not

WINNIE MERCER.

WHAT A NEW YORK MAN HAS TO SAY ABOUT HIM.

Don't Think He Will Fill the Bill on Third Base for the Giants. Other Base Ball Notes.

When the National league purchased the Washington franchise Freedman, of New York, was given his choice of the players and he selected Mercer the first one. In speaking of Mercer a New York correspondent says: "Now it is supposed that Mercer is to fill the gap at third base. The ex-senator played the base for Wagner principally because there was no one else to fill in after Casey had been sold to Brooklyn. There are few men in base ball who will believe that Mercer will prove strong enough in all particulars to become a regular third baseman. Until we know definitely who are to play in New York it is impossible to give a lineup of the team, but one thing is certain, and that is, if such men as Bowerman and Mercer are to be taken as the standard whereby the local club hopes to strengthen the team it is folly to say the outlook is very bright. It would be folly to say that the placing of Mercer on third base puts the infield on a footing with that of Brooklyn, Pittsburgh or Boston."

George Carey has signed his contract with the Buffalo team of the American league, and has forwarded it to the Buffalo manager. The local first baseman was well pleased with the terms of his contract. He expects to report for duty as soon as the season opens, between April 15 and 25.

Charles Howard, the colored base ball player who played left field and pitched for the Cuban Giants last year, will be taken to a Pittsburgh hospital this week.

The local club cranks are already talking of organizing for the season of 1900. An effort will be made to make the local team the best in the Ohio valley.

The Phoenix ball team will organize early in the season and expect to play several games this year.

OUR ALPHA ADDITION,

Located south of Bank street extended, east of Bradshaw and north of Huston Addition, is taking with home-seekers. These are the cheapest lots in the city within same distance of the Diamond. They lie well and you can reach them by paved streets. It is wonderful why we sell them on the terms. Some get the impression that they are inferior and we want to shove them off. Such is not the case. The lots are slightly sloping, but none to hurt; face to the south, and are really worth more money. We sell them on the terms because we are permanently engaged in the real estate business, and, owning this addition, choose to sell these lots in this way. Anyone can afford to buy one. The terms are

\$5 DOWN AND \$1 PER WEEK.

Those country residence sites of 2 and 2 1/2 acres, known as

ROSS' MEADOWS,

is where you ought to build your country home. Roads to Lisbon, Wellsville, Cannon's Mill, Calcutta and East Liverpool cross there, making outlets to every direction. Some fine day call and we will drive you out if interested.

Within the past week we have deeded and sold five of these fourteen lots in the addition joining Oakland. The location and prices are doing the work. Lots 30x110. Price \$225. Terms easy.

Our sale of real estate since January have amounted to more than \$25,000. We have customers now for \$50,000 worth. If you have any property to sell, place it with us.

The Chester Mechanics will meet in their hall over the postoffice this evening and take action on several new candidates.

It is said the school directors of the Grant district schools will hold a meeting after the close of the Chester school to consider the plan of enlarging the school for the next term.

The Chester Street Railway company did an excellent business yesterday afternoon. Many took advantage of the weather and went over to the South Side. Of course the mill proved to be the main attraction, and during the afternoon several hundred persons inspected the new plant.

This morning the mill company commenced to unload the machinery from the seven cars that were brought up from Cumberland junction last Thursday. It is very heavy and the workmen will be glad when it is all in position.

Mrs. Elwood Babb, who has been very ill during the past week, is able to be out.

Carpenters have again commenced to make frames for the new pottery.

William Tindle, of the mill company, spent Sunday in Pittsburg visiting friends.

The list of candidates for the office of sheriff of Hancock county is growing, and Saturday three more men officially made the announcement that they would run. There are now five in the field.

Several families from out of town are expected to move to Chester during the week.

At present there are in the neighborhood of 50 workmen employed at the Chester rolling mill. Very few of them are working for the mill company, but for the firms that have the contract for erecting the machinery.

So far the only person to come out for the office of prosecutor is A. J. McKenzie. He is at present filling that position and is after the second term.

A number of Chester people expect to be called before the grand jury which meets at New Cumberland next Monday. Of course some will be summoned to testify to facts relating to the Johnson murder case, but there are some it is said who will be asked to testify to other things that have taken place in the district since the last sitting of the jury. Sheriff Wilkins will probably be up from Cumberland this week and serve summons.

EAST END.

There is a small foot bridge over the run on Virginia avenue that should be looked after by the council. The bridge is a very frail affair and if allowed to remain in its present condition very long someone may fall from it while crossing over, and then the city will no doubt have another damage suit on its hands. There is a guard on the north side of the bridge, but there is no protection on the south side.

Miss Frienberger, who has been a guest at the home of Mr. and Mrs. J. R. Warner on Pennsylvania avenue for the past week, returned to her home at Canton today.

So far no word has been received in the East End as to the whereabouts of the Penny family, who left their home near Dry Run recently. Mr. Hays, who owns the house the family lived in, is anxious to learn about them, as he does not want to keep the furniture he took from the house and placed in his stable.

The small child of the Conners family, residing on First avenue, who has been under the care of a physician for several days, is recovering rapidly.

Stephen Miller, of Helana, is under the care of a physician.

Frank Powell, of Smith's Ferry, is seriously ill. During the past few days he has had convulsions.

A small child of Ebenezer Miller, of Pennsylvania avenue, is ill with typhoid fever.

Linemen for the new telephone company were working in the East End last Saturday placing cross bars on the new poles. During the week the men will commence to string the wires.

Darwood, the small son of Mr. and Mrs. William Heckathorne, of Pennsylvania avenue, is very ill threatened with the fever.

People who live east of Dry Run, and who have occasion to come to the East End, are wondering when the new bridge will be built over the run. During this kind of weather the bridge is needed more than during the summer weather.

The many friends of Mr. and Mrs. Jacob Schroder will be pleased to learn that a little son came to their home on Pennsylvania avenue Saturday morning.

The small child of Mr. and Mrs. James Miles, who has been ill for the past week, is recovering and will be able to be about within a few days.

During all of Saturday there was a shortage of gas in the East End. The shortage came about noon, just as the housewives were preparing dinner, and they were caused no small amount of inconvenience. The coal supply is not

WINNIE MERCER.

WHAT A NEW YORK MAN HAS TO SAY ABOUT HIM.

Don't Think He Will Fill the Bill on Third Base for the Giants. Other Base Ball Notes.

When the National league purchased the Washington franchise Freedman, of New York, was given his choice of the players and he selected Mercer the first one. In speaking of Mercer a New York correspondent says: "Now it is supposed that Mercer is to fill the gap at third base. The ex-senator played the base for Wagner principally because there was no one else to fill in after Casey had been sold to Brooklyn. There are few men in base ball who will believe that Mercer will prove strong enough in all particulars to become a regular third baseman. Until we know definitely who are to play in New York it is impossible to give a lineup of the team, but one thing is certain, and that is, if such men as Bowerman and Mercer are to be taken as the standard whereby the local club hopes to strengthen the team it is folly to say the outlook is very bright. It would be folly to say that the placing of Mercer on third base puts the infield on a footing with that of Brooklyn, Pittsburg or Boston."

George Carey has signed his contract with the Buffalo team of the American league, and has forwarded it to the Buffalo manager. The local first baseman was well pleased with the terms of his contract. He expects to report for duty as soon as the season opens, between April 15 and the 25.

Charles Howard, the colored base ball player who played left field and pitched for the Cuban Giants last year, will be taken to a Pittsburg hospital this week.

The local club cranks are already talking of organizing for the season of 1900. An effort will be made to make the local team the best in the Ohio valley.

The Phoenix ball team will organize early in the season and expect to play several games this year.

OUR ALPHA ADDITION,

Located south of Bank street extended, east of Bradshaw and north of Huston Addition, is taking with home-seekers. These are the cheapest lots in the city within same distance of the Diamond. They lie well and you can reach them by paved streets. It is wonderful why we sell them on the terms. Some get the impression that they are inferior and we want to show them off. Such is not the case. The lots are slightly sloping, but none to hurt; face to the south and are really worth more money. We sell them on the terms because we are permanently engaged in the real estate business, and, owning this addition, choose to sell these lots in this way. Anyone can afford to buy one. The terms are

\$5 DOWN AND \$1 PER WEEK.

Those country residence sites of 2 and 2 1/2 acres, known as

ROSS' MEADOWS,

Is where you ought to build your country home. Roads to Lisbon, Wellsville, Cannon's Mill, Calcutta and East Liverpool cross there, making outlets to every direction. Some fine day call and we will drive you out if interested.

Within the past week we have deeded and sold five of these fourteen lots in the addition joining Oakland. The location and prices are doing the work. Lots 30x110. Price \$225. Terms easy.

Our sale of real estate since January have amounted to more than \$25,000. We have customers now for \$50,000 worth. If you have any property to sell, place it with us.

DRIVE OUT THE SALOON.

Drive it out of the nation, and peace, plenty, comfort and luxuries will come into the homes of the working men and mechanics of the nation.

SAME HERE.

Sheldon's paper of March 15th has a father standing at a bar drinking damnation and holding his little son by the hand. The writer has witnessed exactly the same thing in this city of East Liverpool.

DID HE LIE?

Did Dodge lie to the leaders of the Anti-saloon league? Rev. Baker emphatically asserts that he did, and Rev. Baker is backed up in this assertion by several members of the senate. And now the query is: "How much did Dodge receive for his vote?" And the next question is: "How much did it cost the Liquor league to defeat the Clark bill?"

SALOON OR NO SALOON?

This should be the question before the people along the line of the liquor traffic. The question should be taken out of politics. It is an absolute burden of infamy, too heavy and damnable in its nature and characteristics for any party to carry. The curse of God is on the saloon, and His curse will follow any party which sanctions and upholds the evil

and crime. This may sound extravagant to some of our readers, but it is a plain statement of a very plain fact. Politicians all over the nation exhibit a cowardly fear of the power of the liquor league and of the saloon. No sane man will attempt to deny this, and full evidence of its truthfulness exists in the city of East Liverpool, and has existed, in councilmanic chamber as well as elsewhere. The vicious minority in the nation, the state, the county and the city has been in control, and it is full time that the grand majority of clean citizenship shall claim its right and assume control. Anti-saloon leagues should be formed on every hand and the sinews of war placed in their treasury. Unity of purpose and action have been the powers which have been winning victories for the liquor league and damning the people. Our legislators must be forced to grant us the option of "saloon or no saloon." God speed the day.

STARK COUNTY'S CLAIM.

In the Judgeship Contest—A Comparison Between Stark and Carroll.

Editor News Review.

The candidacy of Attorney Ralph Ambler, of Canton, for common pleas judge, has attracted attention to the fact that the sub-division as constituted now has a representative on the bench from each of the three counties. This would appear on the face of it to be a fair division, but a study of the facts show that it is not.

Carroll has about 17,000 people, while Stark county has 90,000. In Carroll county court is held only a few weeks in a year, while in Stark two courts are in session most of the time, owing to the enormous amount of work to be taken care of. This is a comparative showing which demonstrates that Stark county should have two judges instead of one as at present.

The judgeship for which the nomination is to be made this spring, was created in 1886, for Stark county alone, because of increased business, and the increase has continued from that time to the present, while in Carroll county the condition is exactly the reverse, the business of the courts having actually decreased.

The above ought to be a sufficient answer to every reasonable man to the plan that each county should have but one judge. Mr. Ambler is a Stark county man, an able lawyer and well calculated to make an ideal judge. There could be no mistake made by the people of Columbiana county in selecting him.

There are those who think Mr. Ambler has been handicapped in his race by the fact that he is in no sense a politician, but the writer is of the opinion that the great mass of voters will appreciate this fact and will be the more eager to extend their suffrages to the man who depends largely upon the merits to fill the responsible office which he seeks.

Mr. Ambler is daily receiving assurances that he is the choice of the majority of the people of this, his native county, for judge.

AN UPRIGHT JUDGE.

A Good Citizen and a Man to Pattern After—A Few Words About Judge Taylor.

The career of Judge Isaac H. Taylor, of Carrollton, has been such as to excite admiration of a host of friends. His probity, his unflinching loyalty to truth and justice, his determination to do right under all conditions and all circumstances, are all attributes which make him a conspicuous example of American manhood—an example which the young man of today will do well to follow.

Years ago Judge Taylor was sent to congress, where he served with distinction for one term. His district was gerrymandered, throwing Carroll county into the same district with William McKinley. Judge Taylor withdrew and sacrificed further congressional ambition, leaving Major McKinley a clear field. He was then appointed to the bench, which he has since occupied, having been twice elected. He now stands for renomination and reelection. There is no good and sufficient reason why Judge Taylor should not be the choice of the Republican primaries held in this sub-division.

Judge Taylor is in the height of his career and his mental acumen is unsurpassed by any jurist in the state. His services are invaluable where he is, and he should be retained.

DRIVE OUT THE SALOON.

Drive it out of the nation, and
peace, plenty, comfort and luxuries
will come into the homes of the
working men and mechanics of the
nation.

SAME HERE.

Sheldon's paper of March 15th has
a father standing at a bar drinking
damnation and holding his little son
by the hand. The writer has witnessed
exactly the same thing in this city
of East Liverpool.

DID HE LIE?

Did Dodge lie to the leaders of the
Anti-saloon league? Rev. Baker em-
phatically asserts that he did, and
Rev. Baker is backed up in this as-
sertion by several members of the
senate. And now the query is: "How
much did Dodge receive for his vote?"
And the next question is: "How
much did it cost the Liquor league
to defeat the Clark bill?"

SALOON OR NO SALOON?

This should be the question be-
fore the people along the line of the
liquor traffic. The question should
be taken out of politics. It is an ab-
solute burden of infamy, too heavy
and damnable in its nature and char-
acteristics for any party to carry.
The curse of God is on the saloon,
and His curse will follow any party
which sanctions and upholds the evil

and crime. This may sound extrava-
gant to some of our readers, but it
is a plain statement of a very plain
fact. Politicians all over the nation
exhibit a cowardly fear of the power
of the liquor league and of the sa-
loon. No sane man will attempt to
deny this, and full evidence of its
truthfulness exists in the city of East
Liverpool, and has existed, in coun-
cilmanic chamber as well as else-
where. The vicious minority in the
nation, the state, the county and the
city has been in control, and it is
full time that the grand majority of
clean citizenship shall claim its right
and assume control. Anti-saloon
leagues should be formed on every
hand and the sinews of war placed
in their treasury. Unity of purpose
and action have been the powers
which have been winning victories
for the liquor league and damning
the people. Our legislators must be
forced to grant us the option of "sa-
loon or no saloon." God speed the
day.

STARK COUNTY'S CLAIM.

In the Judgeship Contest—A Com-
parison Between Stark
and Carroll.

Editor News Review.

The candidacy of Attorney Ralph
Ambler, of Canton, for common pleas
judge, has attracted attention to the
fact that the sub-division as consti-
tuted now has a representative on
the bench from each of the three
counties. This would appear on the
face of it to be a fair division, but a
study of the facts show that it is
not.

Carroll has about 17,000 people,
while Stark county has 90,000. In
Carroll county court is held only a
few weeks in a year, while in Stark
two courts are in session most of
the time, owing to the enormous
amount of work to be taken care of.
This is a comparative showing which
demonstrates that Stark county
should have two judges instead of one
as at present.

The judgeship for which the nomi-
nation is to be made this spring, was
created in 1886, for Stark county
alone, because of increased business,
and the increase has continued from
that time to the present, while in
Carroll county the condition is exact-
ly the reverse, the business of the
courts having actually decreased.

The above ought to be a sufficient
answer to every reasonable man to
the plan that each county should have
but one judge. Mr. Ambler is a Stark
county man, an able lawyer and well
calculated to make an ideal judge.
There could be no mistake made by
the people of Columbiana county in
selecting him.

There are those who think Mr. Am-
bler has been handicapped in his race
by the fact that he is in no sense a
politician, but the writer is of the
opinion that the great mass of voters
will appreciate this fact and will be
the more eager to extend their suf-
frages to the man who depends large-
ly upon the merits to fill the responsi-
ble office which he seeks.

Mr. Ambler is daily receiving as-
surances that he is the choice of the
majority of the people of this, his na-
tive county, for judge.

AN UPRIGHT JUDGE.

A Good Citizen and a Man to Pattern
After—A Few Words About
Judge Taylor.

The career of Judge Isaac H. Tay-
lor, of Carrollton, has been such as to
excite admiration of a host of friends.
His probity, his unflinching loyalty to
truth and justice, his determination
to do right under all conditions and
all circumstances, are all attributes
which make him a conspicuous exam-
ple of American manhood—an exam-
ple which the young man of today
will do well to follow.

Years ago Judge Taylor was sent
to congress, where he served with dis-
tinction for one term. His district
was gerrymandered, throwing Carroll
county into the same district with
William McKinley. Judge Taylor
withdrew and sacrificed further con-
gressional ambition, leaving Major
McKinley a clear field. He was then
appointed to the bench, which he has
since occupied, having been twice
elected. He now stands for renom-
ination and reelection. There is no
good and sufficient reason why Judge
Taylor should not be the choice of
the Republican primaries held in this
sub-division.

Judge Taylor is in the height of
his career and his mental acumen is
unsurpassed by any jurist in the
state. His services are invaluable
where he is, and he should be re-
tained.

A SALOON WAS RAIDED HE IS A SPLENDID MAN

O'Malley's Place Raided by the Police Last Night.

SEVERAL VICTIMS WERE THERE

They Were All Hauled to the City Lockup in the Patrol. Put Up Security For Their Appearance and Will Get a Hearing This Evening.

The saloon of Michael O'Malley was raided last night and the proprietor and six victims were captured.

The raid occurred between 9 and 10 o'clock, and Officer White was the chief operator in the affair. He heard the men in the saloon and secured the services of Officers Davidson, Mahony, Wood, McDonald and Bryan. They surrounded the place and then Officer White pulled off a door in the rear of the building and walked into the wine room of the saloon, where he found the men enjoying themselves, thinking they were safe. They were too much surprised to make any attempt to escape. The patrol was called and the whole bunch was loaded in and taken to city hall, where they put up security for their appearance this evening.

When they arrived at city hall the men gave their names as Isaac Eoff, John Haley, William McKeever, Chal. McClurg, Andy Murray and Amos Reed. A charge of loitering in saloons on Sunday was placed against them and they put up security for their appearance this evening. A charge of keeping his saloon open on Sunday was placed against O'Malley.

THREE DRUNKS.

The Mayor Disposed of One Case and Will Hear the Others Tonight.

Ernest Kretshmer was found lying in the rear of the National house last night by Officer Davidson. He was drunk and had taken the sidewalk for a place to sleep. The officer took him to city hall and this morning the mayor fined him \$7.50. He didn't have the cash and is still in jail.

Officer Mahoney last evening arrested Michael Malone, who was drunk and disorderly. He put up security for his appearance and will call this evening and settle with the mayor.

Thomas Connors, of Chester, came to the city Saturday evening and got drunk. Grim got him and he was conveyed to the city jail. He put up security for his appearance this evening.

Short Sketch of Hon. C. C. Baker's Life.

WOULD BE RIGHT KIND OF MAN

To Represent the District in Congress and Would Serve His Constituents Well—He Served Three Years During the Rebellion, With Honor to Himself and Country, and Was Auditor of This County For Two Terms.

Did it ever occur to you that the population of the United States at the present time is about seventy millions, and that of this seventy millions only about fifty thousand are lawyers, that is one lawyer to every fourteen hundred of the people.

On the other hand did you ever stop to think of the great number of lawyers who are holding office as compared with the total population. National, state and county, legislative, executive and judicial. You will find a great proportion, and all the best offices filled by lawyers.

They make your laws, they execute your laws and they judge your laws.

The only thing you can do is to find fault with the laws, and when it comes to a nomination or election you are told that the only person who is competent to represent you in the office to be filled is the "Wind Jammer" lawyer, who is always a candidate, because he can make a speech.

They have made us believe that a certain part of the offices can be filled by lawyers only, and they are trying hard to create the belief that the balance must be filled in the same way; only one year ago we had a lawyer candidate for the office of sheriff of this county, who tried hard to convince the people that the sheriff's office could be managed properly by no one but a lawyer.

What do you think of this, Mr. Merchant, Mr. Manufacturer, Mr. Farmer, Mr. Mechanic, Mr. Laborer and Mr. Citizen generally? Are we to relinquish our rights to the scheming lawyer politician because he can make a speech?

Are honesty, industry and ability to count for nothing, and are all the lawyers to fill all the offices because they can make a speech?

Using this same argument it will not be long until they tell you the offices of mayor, councilmen, clerk, treasurer, assessor, constable, etc., must be filled by lawyers, because they can make a speech.

Must we turn over the entire government of the nation, state, county and township to the lawyer, because he can make a speech, without reference to his reputation for truth, honesty, industry and ability?

Do you think that this great country of ours was built up and is maintained by wind, or do you think that that which is best about our country has been the result of careful, painstaking effort, business ability, honesty and good judgment?

IS NOW AFTER THE BALANCE

Great Danger to the Public Welfare Unless a Halt Is Called—A Few Pertinent Points That It Would Be Well For the Voters to Consider Before They Cast Their Ballots.

A representative of this paper had the pleasure of meeting Hon. Charles C. Baker, of Alliance, when he was in this city a day or so ago. At this time it is not necessary to repeat that Mr. Baker is desirous of filling Hon. R. W. Taylor's seat in congress. This is well known throughout the Eighteenth congressional district of Ohio. However, there are many points of interest in Mr. Baker's life that are not known to all persons.

Charles C. Baker was born of humble but industrious parents in Pennsylvania. When he was 10 years old his father, John Baker, moved his family to Ohio. They settled in Unity township, this county. There the subject of this brief sketch labored and grew toward robust manhood until he was 18 years old.

At that time the horrors of the greatest war of the century, if not of all time, launched themselves in an effort to disrupt the glorious union. Though a boy then Mr. Baker enlisted with Co. C., Sixth Ohio cavalry. For three years he fought for all that the country now holds dear. After the war he returned to peaceful pursuits on the farm. That work claimed his attention until 1869 when he came to Salem and was appointed deputy collector of internal revenue by the late Jesse Duck, known to all Salem citizens. Later Mr. Baker associated with John R. Vernon in the publication of the Journal. These varied employments gave him that best of all schooling, a liberal, general education and admirably fitted him for his enviable public career to follow later.

In 1880 this farmer, printer and master of politics was elected auditor of Columbiana county on the Republican ticket. He served two terms in this office with honor to himself and credit to the county. As auditor he established a precedent for plain, business-like administration. The record he made there cannot be surpassed if equalled.

After leaving the office Mr. Baker located in Alliance as contracting agent of the Penn Bridge Co., of Beaver Falls, Pa. This work has brought him in contact with state, municipal and county officials of various states. This has served to broaden and develop the man, until today he stands as a representative American citizen in whom the nation may find one of her strongest supporters. His extensive experiences have brought success to himself, as well as to those whom he has represented.

In Alliance and Stark county Mr. Baker has had honor thrust upon him by being elected a member of the board of education, water works trustee and president of the Alliance Bank Co. He was also appointed trustee of the construction of the

magnificent court house at Canton.

All this has fitted Mr. Baker for higher public service, entitle him to it and insure a faithful, representative performance of duties should he be fortunate enough to secure the seat in the national house to which he now aspires.

Mr. Baker is a personal friend of President McKinley, as well as a friend of all with whom he has come in contact during his years of public and private life. Possibly the briefest summing up of the man is contained in these words: he is ever mindful of his friends. Is there anything higher or better to be striven for?

IS NOW AFTER THE BALANCE

Great Danger to the Public Welfare Unless a Halt Is Called—A Few Pertinent Points That It Would Be Well For the Voters to Consider Before They Cast Their Ballots.

A representative of this paper had the pleasure of meeting Hon. Charles C. Baker, of Alliance, when he was in this city a day or so ago. At this time it is not necessary to repeat that Mr. Baker is desirous of filling Hon. R. W. Taylor's seat in congress. This is well known throughout the Eighteenth congressional district of Ohio. However, there are many points of interest in Mr. Baker's life that are not known to all persons.

Charles C. Baker was born of humble but industrious parents in Pennsylvania. When he was 10 years old his father, John Baker, moved his family to Ohio. They settled in Unity township, this county. There the subject of this brief sketch labored and grew toward robust manhood until he was 18 years old.

At that time the horrors of the greatest war of the century, if not of all time, launched themselves in an effort to disrupt the glorious union. Though a boy then Mr. Baker enlisted with Co. C., Sixth Ohio cavalry. For three years he fought for all that the country now holds dear. After the war he returned to peaceful pursuits on the farm. That work claimed his attention until 1869 when he came to Salem and was appointed deputy collector of internal revenue by the late Jesse Duck, known to all Salem citizens. Later Mr. Baker associated with John R. Vernon in the publication of the Journal. These varied employments gave him that best of all schooling, a liberal, general education, and admirably fitted him for his enviable public career to follow later.

In 1880 this farmer, printer and master of politics was elected auditor of Columbiana county on the Republican ticket. He served two terms in this office with honor to himself and credit to the county. As auditor he established a precedent for plain, business-like administration. The record he made there cannot be surpassed if equalled.

After leaving the office Mr. Baker located in Alliance as contracting agent of the Penn Bridge Co., of Beaver Falls, Pa. This work has brought him in contact with state, municipal and county officials of various states. This has served to broaden and develop the man, until today he stands as a representative American citizen in whom the nation may find one of her strongest supporters. His extensive experiences have brought success to himself, as well as to those whom he has represented.

In Alliance and Stark county Mr. Baker has had honor thrust upon him by being elected a member of the board of education, water works trustee and president of the Alliance Bank Co. He was also appointed trustee of the construction of the

magnificent court house at Canton.

All this has fitted Mr. Baker for higher public service, entitle him to it and insure a faithful, representative performance of duties should he be fortunate enough to secure the seat in the national house to which he now aspires.

Mr. Baker is a personal friend of President McKinley, as well as a friend of all with whom he has come in contact during his years of public and private life. Possibly the briefest summing up of the man is contained in these words: he is ever mindful of his friends. Is there anything higher or better to be striven for?

Reorganization of the Pleasant Valley Creamery Company This Morning

This morning Ed Hassey and Thomas F. Manley left for Kensington, where they attended a meeting of the stockholders of the Pleasant Valley Creamery company. The company was re-organized this morning and new officers were elected. The company will be known as the New Pleasant Valley Creamery Co., and has a capital stock of \$4,000, paid up. Hassey and Manley own 21 of the 40 shares of stock. The plant has been idle for the past four months, and it is the intention of the new owners to place the plant in operation immediately.

Rather Cold Blooded.

Of the habits of humanity there is no end, but there are some simple rules for the individual foot soldier to remember when lost in the chaos of battle. If you cannot bayonet your enemy, shoot him. If he goes away, aim at the base of his spine. But do not let your attention be distracted from business by the consideration that other people are making a mark of you. It is your duty to kill the highest possible number of those opposed to you, not to save your own skin.—"How Soldiers Fight," by F. Norreys Council

TAYLER'S TRIUMPHS.

Buckeye State.

In presenting such rehearsals of semi-public opinion and conceded facts as are contained in the appended extracts from the views of recognized party leaders and newspapers of the country upon a subject which just now is of vital interest to the Republicans of the Eighteenth congressional district, no introduction seems necessary. Such words need neither apology nor commendation. They speak for themselves and present to the people of the district their congressman in a light that seems to direct them clearly toward their duty.

Youngstown Vindicator.

The work done by Congressman R. W. Tayler during the fight to exclude Roberts from congress is apt to bear fruit during the coming campaign, in which Mr. Tayler seeks a renomination to his present position.

Whatever may be thought by Republicans hereabouts of Tayler's work as a congressman, there is no denying the fact that he has won attention and commanded notice in his conduct which excluded Roberts from a seat in congress. Eastern papers have been full of praise of Tayler's conduct of the case and of his bearing throughout the whole affair, and it's dollars to doughnuts all this will have a considerable bearing on the coming primaries and conventions.

Perhaps Mr. Tayler has received no higher praise than that which the New York Journal bestows on him in its issue of Monday. Coming from the great Democratic paper of the east, the following editorial will be regarded as quite a puff. The Journal says:

"Now that the country has been spared the disgrace of seeing a polygamist in congress it ought not to forget the men that did the work, to which it owes its escape. First among these is Mr. Robert W. Tayler, of Ohio. Mr. Tayler met the challenge of the Mormon priesthood on the very threshold of the house. On the first day of the session, when the list of representatives was called, Mr. Tayler rose when Utah was reached and objected to the seating of Roberts. He offered a resolution providing for the appointment of a select committee to investigate the right of the polygamist to his seat. The next day he led the debate on this resolution, and when it was adopted he was appointed chairman of the investigating committee, and in that capacity he put nearly two months of solid work on the case, and the result was the splendid triumph of last week.

"Mr. Tayler deserves well of his country."

Washington Special.

Leader of the Republican majority and chairman of the ways and means committee, Hon. Sen. E. Payne, says: "I talked over young Tayler with Reed, before he appointed him even a member of the elections committee in his first term. The speaker wanted a lot of good lawyers on this committee, so that the cases might not be too long drawn out and had heard that Tayler was a promising barrister. In appointing him Reed said that he would have a chance to display any ability he possessed. There was a good deal of curiosity regarding him from the first, as he represented McKinley's district and some of us expected him to try to do great things and fall down in the endeavor. If he had attempted to do so, he would have been a miserable failure. However, he performed all the little duties that came to him with such promptness and ability that heavier honors were offered him,

and he is today one of the most highly respected and most influential members in the entire house. I can say to the people of the Eighteenth district of Ohio that the lower house and the country owe their voters a debt of gratitude for selecting a man of such signal ability as their representative."

TRAMPS.

Residents of Seventh Street Think
They All Visit That Street
Except When It Snows.

When a tramp comes to the city he almost always visits Seventh street, and the residents of that part of the city are at a loss to understand it unless it is because of their unfeeling generosity to the Weary Willies. Last week at least a dozen of the individuals called at the back doors along the street and got something to eat. The day it snowed the residents figured that they would have an easy time of it, as they would just put the tramps to work shoveling snow when they applied for grub. Not a tramp appeared on the scene and the residents had the work to do. The next tramp that comes to that street will get a chilly reception.

TRANS-ATLANTIC TRAVELERS

Furnished Special Attendants by the
Pennsylvania System.

The bureau of attendants for trans-Atlantic travelers established in Jersey City and New York City twenty years ago by the Pennsylvania system, has proven a great convenience to persons making European trips and to tourists arriving in America at that port. It will be particularly convenient for visitors to the Paris exposition because the departure docks of most of the Atlantic steamship lines are convenient to the new Jersey City passenger station of the Pennsylvania Railroad company.

This bureau consists of experienced agents whose duties are to meet passengers arriving in Jersey City and New York over the Pennsylvania lines and assist them in arranging for trans-Atlantic trips via any of the steamship lines by conducting them to steamships and aiding in preparations for a trip abroad.

These agents will provide cabs operated by the Pennsylvania system and aid passengers with their baggage. They are fully posted on matters pertaining to steamships leaving New York, and arrangements can be made through them for procuring steamship tickets in advance.

They also meet incoming steamships to aid travelers in shaping details for continuing journeys from New York over the Pennsylvania lines by furnishing tickets, arranging for the transfer of baggage from steamship docks after it has been passed by customs inspectors, and having the same checked through to destination. They will reserve sleeping car accommodations and relieve persons of the foregoing details, making themselves useful as attendants and guides free of charge.

Further information on the subject may be obtained by addressing the nearest Pennsylvania lines ticket agent, or O. L. Kimball, assistant general passenger agent, Cleveland, Ohio.

LAND ARMS IN LUZON

Rebels Preparing for More Active Fighting.

AGUINALDO'S CAPTURE NEEDED.

Spaniards and Others Who Know, Say it Would Stop the Agitation—Mabini Kept From the Public—Insurrectionists Active—Flores Trusts Americans.

MANILA, March 19.—General Otis considers Manila the most troublesome center in the situation. The insurgent junta here, in conjunction with that in Hongkong, is growing active. The military authorities have been forced to put a stop to Mabini's intercourse with the public. The local and foreign press considers his recent utterances calculated to incite the Filipinos to a continued revolt and prejudicial to American control.

Flores, who has just arrived here, says he comes trusting to American leniency, and that he would not have dared come to Manila if Spain were yet in control. He cherishes the hopes and aspirations which actuated him when in the field, and desires to watch congressional action upon the question of the Philippines. The insurgents, he says, do not expect to vanquish the Americans, but are maintaining a resistance with the idea of forcing congress to accord them the best possible terms.

A number of representative insurgent leaders from different parts of Luzon have recently been in conference in Manila. Some have been placed under arrest, but the others thus far have not been interfered with.

Louis Spitzel, head of the firm of Louis Spitzel & Co., contractors to the Chinese government, and himself a suspected filibuster, came from Hongkong to Manila last week, and was temporarily detained in custody on suspicion. It is asserted upon good authority that three loads of arms and ammunition have recently been landed on the east coast of Luzon. Captain Taylor, of the Thirty-ninth regiment, recently captured twelve new Mausers near Calamba.

Reports are current here of active rebel reorganization in the province of Morong, where the insurgent leaders are said to be assisted by prominent Spanish residents.

Inhabitants of this province who are now in Manila have been advised not to return to their homes, but to remain under the protection of the Americans.

It is also reported that the rebels are reorganizing in the province of Zambales, under Mascardo. Brigands are committing atrocities in the province of Nueva Ecija, where they have murdered 20 natives and Chinamen. Eight other murders have been committed near Tarlac. The Nueva Ecija insurgents are heavily taxing local traders and farmers, with the result that business is paralyzed and there is a general scarcity of food.

The funds for maintaining this guerrilla warfare are collected from the various towns of the island, whether occupied by the Americans or not, even including Manila.

In the province of Albay the insurgents have ceased harrassing the Americans, owing, it is reported, to a lack of ammunition, but they continue ravaging the country side, robbing and looting. The natives are tiring of this sort of thing and threaten to turn against the marauders. Already the townspeople of Legaspi, Albay and Donzoi are slowly returning to their homes.

Major Allen, of the 43rd regiment, has been appointed military governor of the island of Samar, where Lukhan, the former leader of the rebels in that locality, is still in the mountains.

General Kobbe has opened 20 ports in the southern part of Luzon and in the islands of Samar and Leyte, the result of which is to stimulate trade there although only temporarily, as the country opened is non-productive and apparently non-consuming. Owing to the political conditions of the last 12 months, products accumulated during the blockade. These will be shipped to Manila and then the ports will be empty.

Evidence accumulates of the treason and perfidy of the municipal presidents in the provinces of General MacArthur's district. The presidents of several towns in Lepanto and Union provinces have declined to continue in their positions, saying they do not desire any further identification with the Americans. Travel between the towns garrisoned by the Americans is becoming more dangerous. All wagon trains must be escorted by heavy guards in order to insure their safety.

Two ambuses were narrowly averted recently; small traveling parties are attacked; single travelers frequently disappear or are found dead.

Spaniards and Filipinos who are conversant with the Tagalo character unite in asserting that Aguinaldo's capture would terminate the revolution. Three months have passed since was act-

ively pursued.

Today will sail the expedition to garrison the ports of Northern Mindanao. It will be accompanied by the gunboats Manila and Yorktown.

The expedition will take the Fortieth volunteer regiment for the Camarines. If more troops are needed the Thirty-first regiment, now in southern Mindanao, and the Twenty-third regiment, now in Jolo, are available.

Filipino Natives Sentenced to Hang.

MANILA, March 19.—9:40 a. m.—A military commission at Bayambang has sentenced to be hanged on March 30 two natives, who have been found guilty of murdering their countrymen.

SPEECHES ON QUAY CASE.

Some May Be Delivered this Week in Senate—Porto Rican Bill Caucus Scheduled.

WASHINGTON, March 19.—There is difference of opinion as to whether under the agreement to take up the Quay resolution for consideration on the 3rd of April, it can be called up even for speeches in the interim. In the senate it is probable, however, that some addresses may be presented on the subject during the present week if no other matter presses for consideration. An effort will be made by Senator Davis to get up the Spanish claims bill.

In executive session there will be an attempt made to secure the confirmation of Hon. W. D. Bynum as appraiser at New York, which attempt does not promise to be immediately successful. The Hay-Pauncefote treaty will be considered if opportunity presents, but the present indications are against an early move in that direction.

The caucus of the Porto Rican committee will begin its sessions in earnest today, and a strenuous endeavor will be made to get the bill in such shape as to make it acceptable to practically all the Republican senators at as early a date as possible. Senator Foraker is now engaged in preparing amendments to the government bill, and he will exert himself to the utmost to perfect the bill during the present week. If he succeeds in getting a bill which the Republicans will accept the measure will then be pressed with all the speed and energy possible.

It now looks as though the week in the senate would be spent largely in waiting upon the Republican caucus committee. The Porto Rican governmental bill will continue to hold its place on the senate calendar as the unfinished business, and some dilatory speeches doubtless will be made upon it, but it will not be pressed as it would be if there was hope of its passing soon. The Republican senators are opposed to present action on the bill, and no effort will be made to arrive at final results until the caucus committee makes its report.

PORTO RICON BILL MAY PASS.

Likely to Go Through the House Today—Wheeler May Present Himself.

WASHINGTON, March 19.—Today, before the district business is taken up, the Porto Rican relief bill, with senate amendments, will be called up and passed. The senate amendments probably will be agreed to without much opposition.

General Joseph Wheeler may present himself at the bar of the house to be sworn in sometime during the week. So far as can be learned there is no objection on either side to his admission, if his resignation as a brigadier general in the army shall have been accepted before he presents himself. The case, however, may be referred to a committee.

THE DEWEYS GOING TO EUROPE.

Mrs. Dewey Chairman of Cuban Orphan Asylum Committee.

WASHINGTON, March 19.—Admiral and Mrs. Dewey left here for a trip south. They expect to visit Savannah, Macon, St. Augustine, Jacksonville and Palm Beach. The admiral and Mrs. Dewey probably will not return to the city until the latter part of next month, at which time it is said they will sail for Europe, visiting the exposition some time during the summer.

Mrs. Dewey has been made chairman of the battleship committee in aid of the children's Easter festival for the Cuban orphan asylum.

RAIL LAID ACROSS TRACK.

Attempt Made to Wreck Train on the Lake Shore.

CLEVELAND, March 19.—An attempt was made to wreck the Lake Shore fast mail westbound, at Olmsted Falls, about 20 miles west of here. A rail had been laid across the track. The engineer saw the obstruction in time to apply the air brakes.

The front wheels of the locomotive struck the rail, but the engine remained on the track. The engineer says he saw three men run away from the spot where the obstruction had been placed.

THE BOERS GRATIFIED

McKinley's Note to England Appreciated.

MORE PRESSURE IS EXPECTED.

Reitz Said He Believed United States Would Force Settlement, Satisfactory to Two Republics—Expects Burghers to Fight to the Last.

LONDON, March 19.—The correspondent of The Times at Lorenzo Marques, telegraphing under date of March 16, says:

"State Secretary Reitz, of the Transvaal, in the course of an interview, has said that the Transvaal government considers the American reply highly satisfactory and that he believes the United States will bring such pressure to bear as will result in a settlement agreeable to the people of the two republics.

"While admitting the seriousness of the situation, Mr. Reitz says he is convinced that the burghers of both republics will enthusiastically defend the independence of the Transvaal to the last."

THE NATIVES ARMED

BY COL. BADEN-POWELL.

Did So Because He Said Boers Bombarded Stadt, in Which Were Women and Children.

LORENZO MARQUES, March 19.—A dispatch from Mafeking, dated Saturday, March 10, said:

"The garrison is holding its own. We have heard numerous rumors that the siege will be raised, but so far that is not the case. We are pegging along patiently on quarter rations, supplemented by the occasional capture of cattle.

"Our home made gun erratically bombards the Boer trenches. Horrible stories are current that the Boers are inflicting nameless tortures upon captured runners. These may not be true, but they are tending to inflame native passions to such an extent that it may soon be impossible to hold the natives in check.

"Owing to the Boers having deliberately bombarded the native stadt, which is full of women and children, Colonel Baden Powell has armed the natives, but he has only allowed them to act on the defensive, although they have clamored to be allowed to go out and attack at the point of the assegai.

"They will be prevented as long as possible from inflicting reprisals on the Boers."

BOERS LAY DOWN ARMS.

Report Transmitted by Roberts—Mafeking Reported All Well on March 16.

LONDON, March 19.—The war office received a dispatch from Field Marshal Roberts, dated Bloemfontein, Sunday, March 18:

"The guards brigade returned yesterday from Norval's Point. Several burghers have laid down their arms to General Pole-Carew at Edenburg and elsewhere.

"The officer commanding at Belmont reports that some deserters have come in with a Maxim, a nine pounder and another gun. Another nine pounder has been brought into Colesberg. The cavalry brigade has gone to Thaba Nchu in order to reassure the inhabitants of that district and to distribute copies of the proclamation to the people of the Free State. These proclamations are being eagerly sought after.

"Lord Methuen reached Warrenton on March 16. He was in time to prevent the Deviation bridge from being completely destroyed and to secure the Pont on the Vaal.

"The English mail was dispatched from here by rail yesterday, and tomorrow the regular railway service with Cape Town will be reopened.

"Mafeking reports that all was well on March 16."

Corps of Boer Women Formed.

LONDON, March 19.—A dispatch to The Daily News from Bloemfontein, dated March 16, said in part:

I am told that a corps of 2,000 women has been formed at Pretoria. It is called the Amazon corps. All the members are uniformed in kilts and are armed.

Negro Shot to Death.

COLUMBUS, Ga., March 19.—Caleb Humphreys, a negro, who entered the room of Miss McCoy, daughter of a white farmer living just outside of Phenix city, Ala., was shot to death by a party of white men. Humphreys confessed.

MORE PRESSURE IS EXPECTED.

Reitz Said He Believed United States Would Force Settlement, Satisfactory to Two Republics—Expects Burghers to Fight to the Last.

LONDON, March 19.—The correspondent of The Times at Lorenzo Marques, telegraphing under date of March 16, says:

"State Secretary Reitz, of the Transvaal, in the course of an interview, has said that the Transvaal government considers the American reply highly satisfactory and that he believes the United States will bring such pressure to bear as will result in a settlement agreeable to the people of the two republics.

"While admitting the seriousness of the situation, Mr. Reitz says he is convinced that the burghers of both republics will enthusiastically defend the independence of the Transvaal to the last."

THE NATIVES ARMED

BY COL. BADEN-POWELL.

Did So Because He Said Boers Bombarded Stadt, in Which Were Women and Children.

LORENZO MARQUES, March 19.—A dispatch from Mafeking, dated Saturday, March 10, said:

"The garrison is holding its own. We have heard numerous rumors that the siege will be raised, but so far that is not the case. We are pegging along patiently on quarter rations, supplemented by the occasional capture of cattle.

"Our home made gun erratically bombards the Boer trenches. Horrible stories are current that the Boers are inflicting nameless tortures upon captured runners. These may not be true, but they are tending to inflame native passions to such an extent that it may soon be impossible to hold the natives in check.

"Owing to the Boers having deliberately bombarded the native stad, which is full of women and children, Colonel Baden Powell has armed the natives, but he has only allowed them to act on the defensive, although they have clamored to be allowed to go out and attack at the point of the assegai.

"They will be prevented as long as possible from inflicting reprisals on the Boers."

BOERS LAY DOWN ARMS.

Report Transmitted by Roberts—Mafeking Reported All Well on March 16.

LONDON, March 19.—The war office received a dispatch from Field Marshal Roberts, dated Bloemfontein, Sunday, March 18:

"The guards brigade returned yesterday from Norval's Point. Several burghers have laid down their arms to General Pole-Carew at Edenburg and elsewhere.

"The officer commanding at Belmont reports that some deserters have come in with a Maxim, a nine pounder and another gun. Another nine pounder has been brought into Colesberg. The cavalry brigade has gone to Thaba Nchu in order to reassure the inhabitants of that district and to distribute copies of the proclamation to the people of the Free State. These proclamations are being eagerly sought after.

"Lord Methuen reached Warrenton on March 16. He was in time to prevent the Deviation bridge from being completely destroyed and to secure the Pont on the Vaal.

"The English mail was dispatched from here by rail yesterday, and tomorrow the regular railway service with Cape Town will be reopened.

"Mafeking reports that all was well on March 16."

Corps of Boer Women Formed.

LONDON, March 19.—A dispatch to The Daily News from Bloemfontein, dated March 16, said in part:

I am told that a corps of 2,000 women has been formed at Pretoria. It is called the Amazon corps. All the members are uniformed in kilts and are armed.

Negro Shot to Death.

COLUMBUS, Ga., March 19.—Caleb Humphreys, a negro, who entered the room of Miss McCoy, daughter of a white farmer living just outside of Phenix city, Ala., was shot to death by a party of white men. Humphreys confessed.

A. D. Zahninzer, district elder of the Free Methodist church of this section, will be here one week from next Friday for the purpose of attending a quarterly meeting of the congregation of the Chester Free Methodist church. He will be in the city several days.

A small fire occurred at the home of George Beggs in Huston's addition Saturday. The house was about to be fumigated and a fire in one of the rooms was extinguished, and a comfort was hung up in front of the grate to keep the fumes from going up the chimney. It was soon discovered that the fire in the grate had not been extinguished, as thought, and the comfort caught fire, and was burned to the mantel. The carpet about the fire place was burned, but the fire was extinguished without the aid of the department.

TO EXTEND A CALL.

Reverend Gorrell Likely to Be the Next Pastor at the Christian Church.

The official board of the Christian church will meet in the church next Sunday morning before the regular service for the purpose of extending a call to Rev. J. W. Gorrell, who had charge of the services yesterday. Reverend Gorrell is pastor of the Christian church at New Philadelphia.

Card of Thanks.

For myself and congregation I wish in this way to express our thanks to the firemen who so promptly responded to the call for help, and who, in spite of the suffocating smoke, so patiently and perseveringly did their work in putting out the fire in our church on Sabbath morning. A little delay and less energetic effort on their part and the church would soon have been in ruins.

We would also express our gratitude for the many expressions of sympathy by members of other congregations and for the generous offers of the use of their places of worship that came from pastors and official boards of other churches. These expressions of sympathy and offers of help are among the compensating benefits of such calamities.
